

## Extending a lifeline

- Quality health care for all.
- To promote medical tourism by setting up a separate block for the Corporate and NRIs.
- A dedicated and committed focus on Medical Research.
- Focus on community health and hygiene through free camps in the surrounding hamlets and villages.
- Emphasis on child health and related issues through child health camps in schools.

The sight of people struggling due to poor health and poorer healthcare services disturbed me, when I was a child and saddened my mother as she struggled to bring us up. It was my secret desire to establish a hospital for the people of my village. I am sure that today, my mother is happy and showering her blessings from above.
