Summary on Library is automation using Integrated Library Management System (ILMS)

Autolib: ILMS library automation software was acquired by the library in 2013 & is operational.

Name of ILMS software	Nature of automation (fully or partially)	Version	Year of automation
Autolib	Fully automated	Multilingual mode	2013

Salient features of Autolib:

A Popular and advanced integrated Library automation management software, designed and developed by a team of Library & Information Science specialists, database designers, software developers and network specialists. Autolib software is fully integrated, versatile, user-friendly, cost-effective and is also a multi-user Library automation software. It is WEB enabled for Intranet and Internet environments, incorporating latest IT/WEB tools and techniques and adheres to many international standards.

Some other features of Autolib are:

- Easy data entry and handles lakhs of records more efficiently.
- Efficient circulation management system.
- Book ordering and serial control.
- Sorting/printing large number of reports/ statistics.
- Powerful search (Boolean Query Builder) facility.
- Online diary facilities.
