CME on World TB Day – Commemoration

**Velammal Medical College Hospital & Research Institute
& Speciality Wing**

Invitation

Department of Respiratory Medicine Cordially invites you for the CME on

“WORLD TB DAY – COMMEMORATION”

We from Department of Respiratory Medicine VMCH Madurai in collaboration with Reach
AKSHYA TB CARE FOUNDATION are conducting CME on

Tuberculosis . Highlighting on recent updates in diagnosis and management of tuberculosis on
occasion of World TB day on 24/03/2017.

Topics:

1. Recent Updates in RNTCP : Dr. P. Premananth (DNB Pulmonary medicine)

Assistant Professor Dept. Of Respiratory Medicine

2. Standard of TB care in India: Dr. J Guru Karthik (MD Community Medicine)

Medical Consultant Reach Akshya TB Care

Venue: Third floor Auditorium Hospital building

Time: 02.00pm

Followed by High Tea

Welcome with Thanks

Report of World TB day commemoration

DEPARTMENT OF RESPIRATORY MEDICINE

Each year, we commemorate World Tuberculosis (TB) Day on March 24 to raise public awareness about the devastating health, social and economic consequences of TB, and to step up efforts to end the global TB epidemic.

THEME OF TB DAY 2017-UNITE TO END TB

2017 is the second year of a two-year "Unite to End TB" campaign for World TB Day. This year, WHO will place a special focus on uniting efforts to "Leave No One Behind", including actions to address stigma, discrimination, marginalization and overcome barriers to access care.

Under the leadership of honorable Chairman Mr. M.V. Muthuramalingam, Velammal Medical College and Hospital had organized CME program on 24.03.2017 at auditorium Velammal hospital, Madurai.

It was collaborative initiative with Reach AKSHYA TB CARE. Inaugurated by The Dean VMCH Madurai.

It was highlighted on recent diagnosis and management of tuberculosis elaborated by Dr. P. Premananth (AP Pulmonary medicine) & Guest Speaker Dr. Gura Karthik (MD Community medicine).

Students posted in respiratory medicine and final year students and faculties of all departments in Velammal medical college attended it.

Report

Department of Biochemistry, Velammal Medical College and Hospital, Madurai has organized a training and hands on program in "Basics of Microsoft excel". The program was organized in the Demo room, Department of Biochemistry on 25.10.2017 from 9am to 4pm. The following points were covered:

Getting started with excel by Dr. S.Sindhu, Assistant Professor, Pharmacology.

All about cells and Basic data entry by Mr.S.Madhan Pap, System analyst, IT department.

Launch buttons by Dr.M.Saravanan, Associate Professor, Physiology

Importing and using templates by Dr.A.Hariharan, Assistant Professor, Biochemistry.

Titles and Column Names by Dr.B.Sudharsan, Assistant Professor, Community Medicine

Research Methodology Workshop

Report

Date: 06.04.2018

Time: 8am to 4pm

The workshop on Research Methodology was started with a pre-test which was carried out by Department of Community Medicine. First session of the day was on Introduction to research methodology, which was handled by Dr. Deiveegan. He explained the importance of research and elaborated the main objectives of the Research Methodology Workshop were as follows:

- a. To familiarize participants with various research methods and techniques.
- b. To enhance participants' understanding of the research process from conceptualization to publication.
- c. To provide practical guidance on designing research studies and data collection methods.
- d. To enable participants to critically evaluate research studies and identify methodological strengths and limitations.
- e. To facilitate networking and knowledge sharing among researchers from different disciplines.

This was followed by another topic on "Research design and strategy", by Dr. Jayashree. She taught about formulating research questions, objectives and selecting appropriate research designs (quantitative, qualitative, mixed-methods).

Later Dr. Praveena dealt with the topic "Descriptive studies". She explained about the basic summary about the types of research design and went into his topic – case reports and case series. Starting from history to ending with the advantages and disadvantages of the case studies, she explained in depth and in an easily understandable way.

After a short tea break, Dr. Samir handled the subject on "Analytical studies". He explained about the types of analytical studies - case control studies and cohort studies. He emphasized the importance of analytical studies in finding the association between two study groups and in testing a hypothesis.

Velammal Village
Madurai-Tulicorin Bypass Road
Anuppannai, Madurai-625 009, T.N.

VELAMMAL MEDICAL COLLEGE HOSPITAL AND RESEARCH INSTITUTE MADURAI - 625009

This was followed by "Randomized controlled trials", by Dr. Trupti Bodhare. In RCT, she explained about the basics about RCT, Blinding types and technique, advantages, and the difficulties in conducting a RCT. And a few words about quasi experimental studies were also explained.

After this session there was a lunch break for 1 hour. After lunch two sessions were continuously taken by Mr. Vijay Anto on "Sampling methods" and "Data collection and analysis". He explained about the different types of probability and non-probability sampling techniques with suitable examples and pictorial representation. Sample size calculation was dealt in brief for each study design.

Level of significance, power of study and different formula for sample size calculation was explained briefly with an example. Then he also provided participants with practical knowledge of different data collection methods and their application in various research contexts. Participants gained familiarity with statistical analysis techniques for quantitative data and qualitative analysis methods for textual or narrative data, enabling them to draw meaningful conclusions from their research findings.

After a short tea break Dr. Dhaval discusses about "Ethics in medical research". He emphasized the importance of ethical conduct in research, including obtaining informed consent, ensuring participant confidentiality, and addressing potential conflicts of interest.

After conducted the post-test, the workshop ended with vote of thanks.

	Time	Schedule	
	7:45 am	Breakfast	
	8:00-8:20	Registration	
	8:20-8:30	Prayer and welcome address	
	SESSION 1		
	8:30-8:45	How I choose type of surgery - TSA / Reverse TSA / Resurfacing	
	8:45-9:00	TSA / TSA Reverse / Bio Mechanics, Surgical steps, Outcome	
	9:00-9:15	Resurfacing Arthroplasty - Current trend	
	9:15-9:30	Proximal humerus fractures and shoulder replacement	
	SESSION 2		
	9:30-10:00	Case based Panel discussion - Proximal humerus fractures cases for Replacement / Fixation	
	10:00-10:15	Greater tuberosity fractures - Changing trend in management	
	10:15-10:30	Case Based Panel discussion - Arthritis and Cuff arthropathy	
	10:30-10:45	Tea Break	
	10:45-12:45	Live surgery - Total shoulder replacement	
	12:45-13:30	Lunch	
	SESSION 3		
	13:30-13:45	Complications of Total and Reverse shoulder replacement	
	13:45-14:00	Managing failed shoulder replacement	
	14:00-16:00	Live surgery - Reverse shoulder	
	16:00-16:30	Case Based Panel Discussion - Failed Shoulder Cases	
	16:30-16:45	Vote of thanks	

VELAMMAL MEDICAL COLLEGE

HOSPITAL AND RESEARCH INSTITUTE

MADURAI - 625009

The VMC shoulder conference was a two-day workshop about the latest modalities in surgical techniques for shoulder dislocation and shoulder injuries which also included arthroscopic demonstration. The conference was attended by Velammal faculties as well as other college faculties. Day one was dedicated to workshop and day two was dedicated to the CME program. Day one was divided into 3 sessions. First session started at 9.30 am and it included live demonstration of arthroscopic Bankart repair technique which was followed by three case discussions about shoulder dislocation and their management. The second session started after tea break and included discussions about shoulder cuff injuries and their management. This was followed by live arthroscopic rotator cuff repair surgery for about an hour. Session three started after lunch. The session was about rehabilitation after shoulder injuries. There was case discussion about shoulder injuries which was followed by MRI readings and their findings in cases of shoulder injuries. This was followed by live surgery demonstration of rotator cuff tear. After the demonstration the session continued with the rehabilitation programs and methods and cases of failed shoulder repair were discussed. The day ended with that session.

The second day was about the CME program. It has 3 sessions. The first session started with TSA and reverse TSA surgeries. This was followed by discussion about current trends in resurfacing arthroplasty. The second session was case based panel discussion for humerus fractures. This was followed by case-based discussion on arthritis and cuff arthroplasty. The third session was about complications of total and reverse shoulder replacement surgeries. This was followed by a panel discussion on failed shoulder cases. After the session the program ended with vote of thanks.

NATIONAL UNDERGRADUATE CONFERENCE IN NEUROLOGY & ENDOCRINOLOGY - APRIL 2018

The Department of Physiology and Department of Medicine conducted UGBeaCON 2018, a National Undergraduate Conference in Neurophysiology and endocrinology from 19.4.2018 to 21.4.2018 with Dr. Anu HOD of Physiology as the Organizing Secretary and Dr. Chandrasekar Prof and HOD of Medicine, Dr. Vadivel murugan Prof of Medicine, Dr. Angu vijayan Associate Prof of Medicine as Organizing Chairman for the conference. The conference was accredited with 30 credit points under The Tamil Nadu Dr. M.G.R. Medical University. It was attended by 26 colleges from all over Tamil Nadu and Puducherry.

On the first day of the conference three workshops were conducted. They were organized by Dr. Rekha from the Department of Physiology. Workshop on New diabetic gadgets was conducted by Dr. Vadivel Murugan and Dr. Sangeetha from the Medicine Department. The second workshop was conducted by Dr. Jeyashree from Community Medicine Department on Research Methodology. The third workshop was on CT and MRI of Brain conducted by Dr. Mariappan and Dr. Rajalakshmi Preethi from the Radiology Department. Accommodation for the visiting students and faculties, well appreciated by every student and faculty, was arranged in the Velammal Medical college hostel itself by Dr. John Rajpathy. Dr. Shanthi from the Physiology department who was the treasurer of the conference also took charge of the food and refreshments for all the three days.

The second day started with the inauguration of the conference. The function was graced by the Hon. Chairman Shri M.V.Muthuramalingam Sir, The Dean, The Medical Superintendent, Dr. Chandrasekar and other dignitaries from various fields. After the inauguration the academic sessions were underway. Dr. Mythili Bhaskaran, Ex. Dean of Stanley Medical College, gave a talk on "The Good Bad and the Ugly" which was followed by a talk by Dr. Vadivel Murugan on "Overview of Type II Diabetes". After a small break, Quiz on UG Neurophysiology and Psychiatry began. From a total of 18 teams, the top 5 teams were selected from a preliminary written exam and the final quiz was conducted. The Quiz master was Dr. J Keba from the Department of Physiology. UG Quiz was won by the team Salem Kumaramangalam Medical College followed by Mahatma Gandhi Medical College, Puducherry and Saveetha Medical College, Chennai.

In the afternoon debate prelims, case and paper presentations were organized. Debate prelims was conducted by Dr. Vallish from the Department of Pharmacology to select the final list of teams. Case presentation won by, Madras Medical College & Sree Balaji Medical College and paper presentation, won by Thirunelveli Medical College & Kilpauk Medical College was judged by faculties from the Department of Medicine and organized by Dr. Saravanan from the Department of Physiology.

The last day also started with lectures. Dr. T S Sivakumar, Neurologist in VMC specialty hospital" gave a lecture on "Neurology Old and New" and Dr. Subramanian, Rheumatologist in VMC, gave a speech about career guidance. Short films made by various colleges were screened during the break time. First place for short film contest was shared between Madurai Medical College and Melmaruvathur Adhiparasakthi Medical College. An honorary prize was given to Shreedhar Priyan (CRR) of Velammal medical College for short film making.

After the lectures role play event started which was won by Coimbatore Medical College. The event was organized by Dr. Kaniethapriya from Department of Physiology. Off stage events like poetry writing, painting & model making were also conducted in the conference. The Off-stage events were organized

by the faculties of the physiology department. The last event of the conference was the debate, which was conducted by Dr. Vallish, was won by Chettinad Medical College. All the competitive events were conducted separately for Velammal students also and judged by faculties from other medical colleges. The following students from Velammal Medical College received first prize for various events, Dinesh (Final year) for model making, Vaira praveena (Second Year) for case presentation, Pooja Devi (Second year) for paper presentation. Feedback was received from the students as well as from the visiting faculty. The valedictory function was attended by the Dean of Velammal Medical College. Dr. Anu thanked the physiology and medicine department and the student volunteers for making the entire event a grand success.

A Workshop on Quality Assurance In Medical Education

Report

Date: 06-10-2017

Venue: Lecture Hall

Time: 8am-4pm

Program started with introduction and welcome address by Dr Samir Bele.

Dr. Trupti spoke about the context and change in Medical and highlighted some of the education barriers to change in medical education. She explained in detail what is quality and quality assurance mechanism.

Dr Samir explained in detail the coordination of Quality Assurance Process, importance of understanding of the various standards being used and adequate preparation and planning. He emphasised that an effective communication strategy. And everyone including Staff, students, trainees, and other stakeholders need to understand the rationale and significance of the quality assurance process including what is to take place and their contribution. He talked about accrediting teams should work cooperatively meeting agreed deadlines for written submissions.

Dr. Rajkishore emphasised that a range of instructional methods should be used to deliver the program which utilizes all three domains of learning (cognitive, psychomotor, and affective). There should be adequate opportunity for both horizontal and vertical integration of subject material. There should be a strong nexus demonstrated between the program's research and teaching. Adequacy of clinical contact in a variety of healthcare settings is an important consideration.

Dr John informed that as per the specific recommendation by the regulatory body, all the medical colleges are organising FDPs. He insisted that the quality assurance of such programs must be ensured and the outcomes of the same are evaluated as a follow-up activity. He suggested that the quality assurance of the FDP can be accessed via either the internal or external quality assurance methods.

Dr. Trupti Bodhare discussed the various Components of Feedback, Types of Feedback, Purpose of feedback and Feedback and Evaluation.

HOSPITAL AND RESEARCH INSTITUTE

MADURAI - 625009

Dr Dhaval talked about the validity and reliability of the assessment tools for any given competence and emphasized the need for standardized assessment in medical education. He suggested to organise the workshop to train faculty members in assessment process. Dr Dhaval told that assessment in any medical education setting should reflect the educational objectives of the program and should be based on appropriate sampling of the program learning outcomes. A focus should be to provide high-quality formative assessment, through regular feedback. Assessment strategies should include direct observation of core clinical skills, behaviours, and the professional domains of practice. There should be a feasible assessment plan with a workload requirement that can be reasonably met by students and trainees.

A topic on Fostering a quality culture was discussed by Dr. Deiveegan. He highlighted the importance of Internal quality assurance cell (IQAC) as one of the core support systems on which teachers from medical colleges rely to ensure the quality of their educational processes. Through IQAC they can demonstrate that they are having control on their educational quality at par with the standards of accrediting bodies and can continuously improve and enhance their educational programmes.

Finally, Dr John Spoke about Governance and Evaluation. He said that medical education program should make explicit the committee structures governing the activities of the program and this should include appropriate representation from students or trainees. Governance needs to reflect the educational missions and objectives of the program and should ensure autonomy and control over the decision making including the program's overall strategic direction and budget allocation. The responsibilities of the academic leadership of the program should be made clear. Program Evaluation should be transparent and address the content and context of the curriculum and the outcome of the program. Accreditation teams will be keen to see that feedback about the program is used to inform subsequent development and design.

A workshop on Innovative Teaching Learning Strategies in Medical Education Report

Date: 06-07-2017

Time: 8am-4pm

The first session was on introduction to innovative teaching learning strategies. Under this topic Dr Samir Bele HOD of Community Medicine Department VMCH&RI talked briefly about theories of learning where he enumerated the categories of intellectual skills. He also briefed upon the approaches to learning. He also enumerated that effective teaching to be a main concentrating point and increasing it through sharpening the skills was an important milestone towards the goal.

Problem-based learning (PBL), Under this topic Dr Trupti Bodhare clearly spoke about the clinical relevance, small-group interactions, and active learning methods that is given by the PBL curricular alternatives. She also talked about the potential issues and the role of the faculty in maintaining a successful design of PBL. She also briefed upon the Maastricht seven-jump process as the methodology in PBL.

Dr Dhaval briefed upon the topic of flipped classroom and generally talked about the "pedagogy-first" approach of teaching method. He briefed on the methodology by introducing the materials outside the classroom, which in class time is re-purposed for inquiry, application, and assessment. He mentioned about the main disadvantage as it requires reliance to technology and have resistance to change. He concluded the topic by saying it is an instructional strategy and a type of blended learning.

Dr. Jeyashree talked about simulation-based learning and explained that it is a training session in a virtual environment that mimics the real world activates and scenarios. She also mentioned that in medicine it offers great advantages to clinicians by giving the most realistic hands-on experience. She concluded the topic by saying that it provides opportunities to offer support and guidance to upcoming learners but have a disadvantage of maintenance and costly.

VELAMMAL MEDICAL COLLEGE

HOSPITAL AND RESEARCH INSTITUTE

MADURAI - 625009

Dr Dhaval opened the topic by saying that self-directed learning is a very different method of teaching, and it mainly depends on the students where the he/she takes initiative for learning by themselves and it includes activities such as selecting, managing and assessing their own learning activities. He also threw light by saying that teachers must help the student by providing the advice, direction, and resources to support the students while peers provide collaboration.

Dr Trupti Bodhare enumerated Community Based learning by explaining that it is an organizations program to promote learning and social development work. She added by saying the methodology as including individuals and groups in various activities in communities using a range of formal and informal methods. She also briefly explained about the Wisconsin model of Community Education and added on to the fact that it helps in providing process framework.

Dr Saranya talked about Small group discussion and the methodology of conducting this by having proper interaction among small group and the process should include dynamic, spontaneous and continues with each participant playing active roles. She also added to the topic that it may have some disadvantages in a larger group of people due to the difficulty in organizing such a meeting.

Dr. Deiveegan talked about the Interprofessional learning. He enumerated that when two or more professions learn with, from and about each other to improve collaboration and the quality of care is the heart of interprofessional learning. He also added on to that by saying that it greatly depends upon the relationship and the communicative skills between the different types of professions. He specified that the main disadvantage is the tremendous effort required to project an agenda with many professions involved and making it a feasible one for all.

The session concluded with valedictory function and vote of thanks.

Dear Friends,

It is a pleasure to invite you for the Velammal Shoulder Conference for Arthroscopy and Arthroplasty. The conference aims to clarify all doubts we come across in diagnosing and formulating management plan for shoulder conditions. For an aspiring trainee this will form a feast to understand the practical aspects of shoulder conditions. Decision making for surgical or conservative management, counselling the patients and common MRI diagnosis will be discussed. Live surgeries are planned and Bone model workshops for shoulder arthroscopy and arthroplasty will entertain enough. Renowned in the field are invited as faculty. The international faculty Dr. Angelo Diguinta from Italy and Dr. Sham Osman from South Africa have enormous experience in the field and will join us to share their knowledge. Interesting case scenarios that we come across in day to day practice will be put forth for the panel discussion and the evidence based view of the faculty will be shared. We welcome you to join the conference. The registration for conference is nominal. The workshop will teach on arthroscopic bankart repair/rotator cuff repair, Total shoulder and Reverse shoulder replacement. I hope this meeting will give a rewarding experience for the delegates and faculty.

Experience of Fellows...

Dr. Bharath MBBS., DNB (Ortho)
Jan 1st 2016 to Jan 31st 2016

The visiting fellowship at Cardiff and Vale University was an icing in the cake after a fellowship under Dr. K.N. Subramanian which formed a strong foundation on which further knowledge and experience could be added. The wide variety of cases gives adequate exposure to the different techniques that can be adopted in daily practice. With the consultants being generous in sharing their expertise areas, the shortcuts that can be used and the hardships during their practice, makes it great learning experience.

Dr. Balaraju MBBS., MS (Ortho)
May 1st 2016 to May 31st 2016

I am really fortunate to have selected for one of the most coveted United Kingdom Visiting Fellowship offered through Dr. K.N. Subramanian in collaboration with Dr. Angus Robertson of Cardiff University. I had experience of assisting various complex knee and shoulder arthroscopy surgery. The hospital is attached to Cardiff University and consists of more than 30 Orthopaedic surgeons and hence also had chances to assist Primary and Revision arthroplasty cases. It is pleasurable and an immensely wonderful learning experience. While doing this visiting fellowship, I also applied for paid fellowship in London and feel happy to say that I got selected for another fellowship in London to start from September 2016

Dr. Balasugumar MBBS., MS (Ortho)
Jan 2016 to August 2016

It is 10 months since I finished fellowship with my Chief Dr. K.N. Subramanian, I learned a lot with him in Arthroscopic shoulder and knee surgery. It was also a wonderful learning experience in Cardiff. The fellowship was designed such a way that there is clear targeted achievement from month by month and finally getting experience from UK also. It is a turning point in my career, he also guided me through to start my Arthroscopy practice at my home town. I believe that this fellowship has not only taught Arthroscopy but has also given Self confidence, a new profile for doing hard work and getting right attitude.

Experience of Fellows...

Dr. Smarth Arya
MBBS., MS (Ortho), DNB (Ortho), MNAMS
Nov 1st 2016 to Dec 12th 2016

I feel really blessed and fortunate to have a teacher, mentor and a guide like Dr. K. N. Subramanian Sir right from the start of my Orthopaedic career. I am really grateful to him for selecting me for the clinical fellowship programme at Llandough University Hospital which is attached to the Cardiff and Vale University, UK. Dr. Angus Robertson and his team were really generous in guiding and teaching me different techniques, shortcuts in arthroscopic surgeries of shoulder and knee. I also got good exposure in shoulder and Elbow arthroplasty. It was a wonderful learning experience and is helping me immensely in my daily practice.

Dr. Girishkumar MBBS., MS (Ortho)
Jul 1st 2016 to Dec 31st 2016

I am extremely benefited from the fellowship under Dr. K.N. Subramanian. This fellowship was a comprehensive experience that provided excellent exposure to different cases in Arthroscopy and Sports Medicine. Dr. K.N. Subramanian showed enormously patience in teaching me from basics of Arthroscopy to advance techniques. International fellowship at UK was dream come true with exposure as an observer and had close working relationship with best renowned shoulder and knee surgeons. Totally it was wonderful opportunity to gain experience in the most up-to-date techniques in Arthroscopy and sports medicine.

Dr. Amit Handa MBBS., MS (Ortho)
Jan 1st 2017 to Jul 31st 2017

I hail from Delhi. Presently I am about to finish my 6months fellowship with Dr. K.N. Subramanian. These 6 months had been a wonderful period for me with Dr. K.N. Subramanian. This fellowship gave me a enough exposure, hands on and tricks in managing the simple and complex shoulder and knee arthroscopy surgeries. Other than arthroscopy I also got a wide experience in hip and knee arthroplasty. Now in July I'm leaving to Cardiff, UK for 6 weeks of visiting fellowship in Arthroscopy to Cardiff and vale university health board.

SYMPOSIUM ON TREATMENT MODALITIES OF OBSTRUCTIVE JAUNDICE AT VMCH&RI

Velammal Medical College Hospital and Research Institute conducted a symposium on treatments modalities of obstructive Jaundice at VMCH & RI. Shree M.V. Muthuramalingam, Honorable Chairman, Velammal Educational Trust, presided over the programme while Dr. R. M. Rajamuthaiah, Dean, Dr. Somasundaram, Medical Superintendent, Dr. Selvakumar, Director of Medical Services, Mr. Subramani, COO, and Dr. Kannan, Chief doctor, Rajaji Government Hospital accompanied with him. Welcome speech was given by Dr. A. C. Arun, Department of Surgical Gastroenterology. Dr. Jahangir Basha, Gastroenterology Surgeon, Asian Institute of Gastroenterology, Hyderabad was invited as a special guest to the programme. He delivered the speech concerning gallstones, gallbladder obstruction, gallbladder cancer, obstructive jaundice and respective treatment modalities. He also discussed the recent advancements in managing the obstructive jaundice through endoscopy rather than surgery. At the end of the session Doubts raised by the audience were clarified. The symposium was valedicted with vote of thanks by Dr. Sudhan.

**VMCH&RI- SPARSH LEPROSY AWARENESS CAMPAIGN 2018 – “CREATE LEPROSY FREE WORLD”**

On behalf of the department of 'Public health and Preventive medicine', National leprosy eradication programme has implemented 'Sparsh Leprosy Awareness Campaign 2018'. Central Leprosy Control Centre along with State Health Department and other Government sectors are involved in the campaign. All private medical colleges are also actively participating in the campaign by conducting discussion/symposium regarding leprosy eradication. Dr. K. V. Arjun Kumar, Deputy Director of Health Services, Madurai, started the symposium. Dr. Samyappan, DDMS (LEP) delivered a speech concerning leprosy eradication and activities implemented towards the campaign. He explained that awareness can be created in the community through free skin examination camp, drawing competitions for school and college students and leprosy awareness rally. Speech on free government schemes and incentives to the leprosy patients were provided. He also quoted that Mahatma Gandhiji's vision of creating "Leprosy Free World" can be achieved by wholehearted involvement of the community. Deputy Director, DDMS (LEP) Dr. Amutha, Dr. Siva kumar, Mr. Syed mohammad sadhuli. Dr Gnana sekharan, Dr. Nirmal, Dr. Narmadha Devi (Dept. of Dermatology, VMCH & RI) and all other dept. doctors participated in the program. Dr. AS. Krishnaram, HOD, Dept of Dermatology, VMCH & RI presented memento to the guests. At the end of the program, nursing staffs took SPARSH LEPROSY PLEDGE to work together and fulfill the dream of Mahatma Gandhi, to create a "Leprosy-Free India".

MADURAI - 625009

PROGRAM AGENDA

08.30 am - 09.00 am	Registration
09.00 am - 09.30 am	Welcome address & Orientation to programme
09.30 am - 11.00 am	Session I
11.00 am - 11.15 am	Tea break
11.15 am - 12.45 pm	Session II
12.45 pm - 01.30 pm	Lunch
01.30 pm - 03.00 pm	Session III
03.00 pm - 04.00 pm	Break
04.00 onwards	Valedictory function

Categories of submission

- Patented equipment
- Novel techniques
- Clinical Innovations
- Administrative models & reforms

Last date for Submission

15th Sept, 2018

Criteria for Selection

- ✓ Novelty of Intervention
- ✓ Application / Relevance
- ✓ Scale of use
- ✓ Cost effectiveness
- ✓ Benefits (↓ Morbidity, Mortality, Disability)
- ✓ Generalisability
- ✓ Risk vs Benefits of the Interventions

Who can participate?

- Consultant/Faculty/PG in DM, MCh, DNB (Super Specialties)
- Consultant/Faculty with M.D, M.S, DNB (Specialties) degree

AWARDS

1st PRIZE ₹ 1 Lakh with GOLD MEDAL and Certificate of Achievement	2nd PRIZE ₹ 75000 with SILVER MEDAL and Certificate of Achievement	3rd PRIZE ₹ 50000 with BRONZE MEDAL and Certificate of Achievement
---	--	--

All other participants
will be honored
with a
**PARTICIPATION
CERTIFICATE**

VELAMMAL MEDICAL COLLEGE HOSPITAL AND RESEARCH INSTITUTE MADURAI - 625009

Velammal Medical College Hospital and Research Institute has organized 'Velammal Healthcare Innovation Awards 2018' on 10th November to mark the Founder's Day of the Velammal group of institutions. Ever since its inception, Velammal Medical College Hospital and Research Institute has always utilized opportunities to widen the horizons of knowledge and skills among the medical fraternity focusing on futuristic techniques and innovations to keep in pace with changing epidemiology and advancing technology for a healthier and safer future. Velammal Innovation Awards has organized the first edition of award with new grandeur as "Velammal Healthcare Innovation Awards 2018".

The award was aimed to identify and celebrate innovations in healthcare while recognizing the champions of innovation among medical field, introduce to the world the best and latest in the healthcare industry. It was an attempt to facilitate organizations and individuals for their innovative contributions which have made healthcare delivery more efficient and affordable at large. This award provided a unique platform to discover new innovative products in healthcare across all ranges, enrich the knowledge and interact with eminent speakers and innovators. It was a grand opportunity to build effective partnerships through networking & collaboration and take a step towards offering better healthcare to all. The entire programme was scheduled for two halls for the day.

Hall A had a forenoon and an afternoon session. Hall A forenoon sessions presentations included Use of Mesh In Orthopaedic Oncology Surgery and A new technique for closed reduction of traumatic posterior dislocations of the hip: The 'PGI technique', a device for hand rehabilitation, A low-cost banding device for oesophageal varices using Foley catheters and In the making of synthetic bone graft. Hall A afternoon session included presentations - Digital Nethra for Eyes – DIGNIFO (DigniFY), The Trash to Treasure RETCAM - T3 RETCAM, C3 Field Analyser: A Virtual Reality (VR) Based Portable Device For Visual Field Testing, Development of cost effective pupillometry device to study the pupil size variability by using IR videography technique as a tool to assess autonomic functions, Visual Intervention Kit for children with Special needs and Imagery Based Cognitive Therapy for Young Children Suffering From PTSD.

Workshop on MEU faculty to discuss GMER - MBBS curriculum for conducting CISP preclinical faculty

The workshop was conducted under the following headings - Foundation course, early clinical exposure, Integrated teaching, Skills Teaching and Assessment. The session was inaugurated by the MEU coordinator Dr. John Rajpathy. Professor, Department of Physiology. Velammal Medical College Hospital and Research Institute -Madurai-09. The sessions were conducted with 30 members of the MEU. The sessions conducted were foundation course, early clinical exposure, integrated teaching, skills teaching and assessment. The parameters which were discussed are punctuality, interactions in sessions, use of learning aids in group work presentations, enthusiasm.

2018-19

A Workshop on Communication Skills In Medicine

Report

Date: 06.07.2018

Venue: Lecture Hall

Time: 8am-4pm

Program started with introduction and welcome address.

The first session for the day was on the topic, "Objectives & Rationale for Communication Skills teaching and learning" by Dr. Samir Bele. He explained and pointed out the objectives of communication skills.

He also used many videos to elaborate importance of communication skills in teaching and learning and explained the components of communication skills in detail. Following this Dr. Trupti Bodhare has given a brief lecture on the topic, "The doctor – patient relationship".

She clearly explained that both the patient and the doctor have active roles in the concept of working in the partnership. She also given future directions for doctor patient relationship. She emphasised her point of view of patient centred behaviour. This session was continued with the topic, "Information sharing and shared decision Making", by Dr. John.

He suggested the need for considerable efforts in our communication teaching. He explained the skills of Information sharing and shared decision making in the current teaching practice. He concluded his speech by saying that cutting edge of future development will be how to enable patients to not only understand the information but to help them to understand the scientific uncertainty and clarify their own personal preferences and values and how these impact on their eventual decisions. After a short tea break, Dr. Praveena dealt with the topic, "Written communication".

She mentioned that Health care professionals who cultivate strong writing and communication skills are well-positioned to achieve their professional goals. She points out that health care professionals with effective writing skills can leverage their ability to strategically communicate information and ideas.

VELAMMAL MEDICAL COLLEGE

HOSPITAL AND RESEARCH INSTITUTE

MADURAI - 625009

She also explains that knowing how to communicate clearly in writing can be an integral skill that translates well in providing high-quality patient care. After this Dr.Rajkishore had a speech on topic, "Breaking Bad news".

He said there is evidence that some clinicians have difficulty or lack the skills to share difficult news and that poor delivery of bad news has consequences for both patients and doctors. He raised an important question that "what do patients want? And also explained the answers with many examples. This was followed by lunch break for 1 hour.

Later, afternoon session started with the topic, "Inter professional Communication and Its Challenges", by Dr. Samir Deorao Bele. He said that in the practice setting, different professionals are expected to work together effectively, and they will have an opportunity to learn how to do this in the most effective way. She later explained challenges associated with interprofessional communication. She concluded by saying that opportunities to learn and work with others, together with timely and constructive feedback, will help learners reflect on their development and how they manage these challenges from the outset and throughout their careers.

Dr. Saravanan gave a lecture on, "Learning Communication Skills". He emphasised that behaviourism has been a major influence on medical education as a whole, and clinical communication education in particular, in recent decades. He also mentioned the importance of extending this kind of education into the postgraduate domain to provide a continuum of development that follows the principles of lifelong professional learning for the doctors.

After a short tea break, Dr. Jayshree gave a lecture on, "Assessment of Communication", wherein she elaborated on the current practice in assessment of communication with attention to why it is assessed, what is assessed, who assesses, when assessments are made and how the assessment is made. She concluded by saying that Clinical communication must serve the society in which it is situated.

Later the workshop came to an end with valedictory function and vote of thanks.

A Workshop on Evidence Based Medicine

Report

Date: 18-12-2018

Venue: Lecture Hall

Time: 8am-4pm

After the participants underwent registration, the inauguration ceremony was conducted in which Dr. Samir Bele, Professor and Head, Department of Community Medicine welcomed all participants and dignitaries and informed about the workshop objectives.

Dr Samir then delivered a scientific session on introduction to the concept of Evidence Based Medicine. He explained in detail what is evidence-based Medicine and why we need to study Evidence Based Medicine. He then talked about the elements of Evidence Based Medicine. Also, he added a small note on the differences between expert based and Evidence based Medical Decision Making.

For the second session on EBM and Learning to a doctor, Dr. Sudhir Ben emphasized on the advantages of EBM. He also stated that the new age of Medicine is going towards the one which is evidence based. He also explained the relation of clinical uncertainty to Evidence Based Medicine.

In the next session, Dr. Trupti Bodhare, discussed the unique characteristics, strengths, and weaknesses of common clinical research study designs which includes descriptive studies (cross-sectional, case reports, case series), timed studies (prospective, retrospective) and longitudinal – observational studies (case-control, cohort studies, interventional (clinical trial)).

The detailed explanation of each type of studies were told. Also she explained how strength of evidence varies with different study designs.

The basic outline and definition of observational and interventional studies were stated by Dr. Sudharsan. He stated that an interventional study tests an intervention – a potential drug, medical advice, activity or procedure.

VELAMMAL MEDICAL COLLEGE HOSPITAL AND RESEARCH INSTITUTE MADURAI - 625009

Also, the Advantages and Disadvantages of both studies were compared and explained. Dr. Jayashree talked about the relatively recent development in the medical research – Randomized Controlled Trials. She made sure that everyone gets the characteristics of an RCT including the hypotheses, inclusion and exclusion criteria. The process of randomization and blinding were explained with examples. She concluded with the problems and ethical issues associated with RCT.

Dr. Praveena from Department of Community Medicine defined the Systematic Review as a review of clearly formulated question that uses systematic and explicit methods to identify, select and critically appraise relevant research and to collect and analyse data from studies that are included in the review. She described the three features of a systematic review.

Next session was on searching the medical literature for evidence. The session then started with explaining various clinical resources categories including systems, synopses, summaries, and studies. Various Databases available to do the above including PubMed, EMBASE, and other subject specific and regional databases were mentioned, and important ones explained. Boolean Method used to add or eliminate the search topics were taught with examples.

The last session focused on appraising various articles including the therapeutic, diagnostic and articles on harm and aetiology and Appraising Prognostic Studies was conducted by Dr. Saravanan. In appraising various articles, the following to be taken into consideration – Validity of the study, importance of the valid results and how to assess the same. He also explained the unique factors to be considered for each article. He discusses various checklist like STROBE, PRISMA, CONSORT to evaluate the articles.

In the end Valedictory function and certificate distribution to the participants was done.

A Workshop On Ethics And Law In The Medical Curriculum

Report

Date: 09.11.2018

Time: 8am to 4pm

Dr. Trupti Bodhare from the Department of Community Medicine gave an introduction to ethics and law in Medical Curriculum. She defined ethics among medical professionals as "moral principles which should guide the members of medical profession in their dealing with patients, their relatives, and community and with colleagues in profession." She talked about the need for programmatic development in medical law with multidisciplinary ethical education.

The four pillars of Medical ethics are Beneficence, Non-Maleficence, Autonomy, and justice. Framework for ethics and law education among Medical Professionals were explained by Dr. Samir Bele from the department of Community Medicine. He then talked about the Medical Ethics Concepts – Consequentialism, Utilitarianism, and Deontology

In the third session, Dr. Deiveegan from the department of Community Medicine talked about the increasing public Health concern among healthcare providers worldwide – Medical Negligence in Clinical Practice. He defined the term as "an act of omission or commission in planning or execution that contributes or could contribute to an unintended result." He then talked about the various types of Medical Negligence that exists and talked in detail about the same with various clinical scenarios.

After a break the fourth session by Dr. Praveena was about Integrating ethics and law in clinical skills Training. She said that the Healthcare workers must recognize Healthcare dilemmas, make good judgements and decisions based on their values while keeping within the laws that govern them. She articulated the key issues arising in phenomenon of ethics education in a real-world context.

Next up, Dr. Saravanan talked about the Rights and Duties of Doctor towards the patients, his colleagues and to the society. Emphasis was made on the free will of a doctor to choose whom he will serve, his assistance in case of an emergency and an act of negligence that may deprive his or her patients from necessary medical care and obligations of a physicians to the sick

VELAMMAL MEDICAL COLLEGE HOSPITAL AND RESEARCH INSTITUTE MADURAI - 625009

Dr. Jayashree from department of Community Medicine presented the basic principles and standards of Ethics in medical research and publishing. The session educated them on research ethics and what constitutes research misconduct. Discussion of these are essential for finding a solution to this problem and ensuring careers are constructed on honesty and integrity, she concluded.

Dr. Sudharsan gave a talk on the early interprofessional learning among medical professional as it provides various benefits for future collaboration among professional and high-quality care for patients. He emphasised the integration of interprofessional education in undergraduate studies to achieve significant sustainable improvements in health care practice. He talked about various methods of incorporating interprofessional ethics and law education

The final discussion was about Confidentiality and Informed Consent by Dr. Jayashree. She defined the terms Confidentiality as "a set of rules or a promise usually executed through confidentiality agreements that limits access or places restriction on certain types of information" and Informed Consent as "an agreement by a client to accept a course of a treatment, procedure or research after being provided complete information including benefits and risks". She then discussed the importance of both. The emphasis has been made on the ethical and legal elements of informed consent and the process of obtaining one. She concluded the session with a note on Informed refusal.

VELAMMAL MEDICAL COLLEGE HOSPITAL AND RESEARCH INSTITUTE MADURAI - 625009

Title	: OS SALUS (CME on bone health).
Speakers	: DR. Jeyachandran M.D., (BIOCHEMISTRY) Professor and HOD, PSGIMSR, Coimbatore. DR. Josephin Latha M.D., (BIOCHEMISTRY) Professor and HOD, GMKMC, Salem. DR. V.Raviraman M.S., (Orthopedics) Professor and HOD, VMCHRI, Madurai. DR. N.Subramanian M.D., MRCP (Consultant Rheumatologist), VMCHRI, Madurai.
Date	: 07.06.2019
Time	: 8.30 am – 5.00 pm
Venue	: 3 rd Floor Auditorium
Targeted audience	: Medical professionals.

Summary: The program started with tamil thai vazhthu which was song by our first professional M.B.B.S., students. The program was inaugurated by our DEAN DR. R. M. Rajamuthaiah M.S.,M.CH.,. The welcome speech to the dignitary and students was delivered by HM.CH..the Department DR. P.K. Mohanthy. Following this wall painting on structural organization of DNA and video on bone mineralization and demineralization done by first year M.B.B.S., students was displayed.

The First guest lecture was started by DR. Jeyachandran. The speaker has started the lecture with basic anatomy and histology of bone. Then he has explained about the various factor involved in bone development and resorption.

The second guest lecture was given by Dr. V.Raviraman. He has started the lecture with a story which keep the audience engaged during the presentation. He has spoken about various bone disorder with their clinical feature, investigation, and treatment.

Report

Department of Biochemistry, Velammal Medical College and Hospital, Madurai has organized a training program in "Protocol writing in clinical research". The program was organized in the Demo room, Department of Biochemistry on 10.12.2019 from 2pm to 5pm. The following points were covered:

Protocol – Fundamentals by Dr. Mohanty, Professor & Head, Biochemistry.

Criteria for a research topic by Dr. K.Suganthi, Professor, Biochemistry.

Need for a research protocol by Dr. M.Saravanan, Associate Professor, Physiology.

Process in protocol writing by Dr. Raj Kishore Mahatho, Professor & Head, Pharmacology.

Protocol – format by Dr. B.Sudharsan, Assistant Professor, Community Medicine.

Program Report

Title of the Program : Velammal Healthcare Innovation Awards
(VHIA) 2019

Nature of the program : Conference

Duration of the program in hours : 9 am to 6 pm

Academic Year : 2019

Date of the program : 15.11.2019 & 16.11.2019

Guest Name : Dr. Thamilsai, Honourable Governor of
Telangana

Venue : Ida Scudder Auditorium, VMCH&RI

Class / Year : All medical students

No. of Participants : 1378

Velammal Medical College Hospital and Research Institute has organized 'Velammal Healthcare Innovation Awards 2019' on 15th and 16th November to mark the founder's day of the Velammal group of institutions. Ever since its inception, Velammal Medical College Hospital and Research Institute has always utilized opportunities to widen the horizons of knowledge and skills among the medical fraternity focusing on futuristic techniques and innovations to keep in pace with changing epidemiology and advancing technology for a healthier and safer future.

Keeping these fundamentals in mind and continuing with the legacy to recognize the contributions of those who have set benchmarks of excellence in the healthcare space, and helped society at large, Velammal Innovation Awards has organized the second edition of award with new grandeur as "Velammal Healthcare Innovation Awards 2019". The award was aimed to identify and celebrate innovations in healthcare while recognizing the champions of innovation among medical field, introduce to the world the best and latest in the healthcare industry. It was an attempt to facilitate organizations and individuals for their innovative contributions which have made healthcare delivery more efficient and affordable at large. This award provided a unique platform to discover new innovative products in healthcare across all ranges, enrich the knowledge and interact with eminent speakers and innovators. It was a grand opportunity to build effective partnerships through networking & collaboration and take a step towards offering better healthcare to all. The entire programme was scheduled for two days. Innovators presented their innovations on 15th of November in front of a panel of eminent judges followed by the Conference and Award Ceremony on 16th of November. The display of innovations, including some of the best discoveries of this decade was made available in the exhibition, which was organized on 16th November at Ida Scudder Trade Centre, Madurai. A total of 64 doctors, scientists, research and development professionals, manufacturers of medical equipment, healthcare IT companies, Health-tech Startups across the nation had participated in the competition and showcased their innovations in this grand competitive event which is being organized annually.

VELAMMAL

INNOVATION
SUMMIT AWARDS

2018

9am to 5pm

Venue: Ida Scudder Auditorium

Velammal Village, Anuppanadi, Madurai - 625009, Tamil Nadu

Greetings from Madurai,
the cultural capital of Tamil Nadu!

Ever since its inception, Velammal Medical College Hospital and Research Institute has made a remarkable difference in the healthcare scenario of Tamil Nadu. The college functions with state-of-the-art infrastructure, expert faculty and futuristic learning methods to produce astute and empathetic physicians for tomorrow and the hospital provides high quality patient care at affordable cost to people of South Tamil Nadu.

Madurai, the city which hosted the three major assemblies of the Tamil language, is a renowned academic centre for various disciplines. It has been a cultural hub and a haven for scholars from across the globe, since time immemorial. Velammal Medical College Hospital is a feather in the cap of this glorious city and has always upheld the tradition of the city in patronizing scholars.

In this spirit, the institute is organizing 'Velammal Innovation Summit Awards 2018', to mark the founder's day of Velammal group of institutions. It aims to encourage novel techniques and innovations in order keep up with the pace of changing epidemiology and advancing technology to be prepared for a healthier tomorrow.

I invite the doctors; specialists and super-specialists across the nation to showcase their innovations in healthcare at VISA'2018 and take the first step towards making a change in the healthcare scenario of our country.
Looking forward to your active participation in VISA'2018!

Regards,
Prof. R M Raja Muthiah
Dean,
VMCH&RI, Madurai

PROGRAM AGENDA

08.30 am - 09.00 am	Registration
09.00 am - 09.30 am	Welcome address & Orientation to programme
09.30 am - 11.00 am	Session I
11.00 am - 11.15 am	Tea break
11.15 am - 12.45 pm	Session II
12.45 pm - 01.30 pm	Lunch
01.30 pm - 03.00 pm	Session III
03.00 pm - 04.00 pm	Break
04.00 onwards	Valedictory function

Categories of submission

- † Patented equipment
- † Novel techniques
- † Clinical Innovations
- † Administrative models & reforms

Last date for Submission

15th Sept, 2018

Criteria for Selection

- ✓ Novelty of Intervention
- ✓ Application / Relevance
- ✓ Scale of use
- ✓ Cost effectiveness
- ✓ Benefits (↓ Morbidity, Mortality, Disability)
- ✓ Generalisability
- ✓ Risk vs Benefits of the Interventions

Who can participate?

- Consultant/Faculty/PG in DM, MCh, DNB (Super Specialties)
- Consultant/Faculty with M.D, M.S, DNB (Specialties) degree

Velammal HEALTHCARE

INNOVATION AWARDS

2019

Venue: IDA Scudder Auditorium, Madurai, Tamil Nadu

16.11.2019 (SATURDAY)

Greetings from
Velammal Medical College Hospital and Research Institute, Madurai!

Ever since its inception, Velammal Medical College Hospital and Research Institute (VMCH&RI) has made a substantial impact on healthcare scenario of southern Tamil Nadu. The medical college functions with state-of-the-art infrastructure, expert faculty and employs innovative teaching and learning methods to produce astute and empathetic physicians for tomorrow. The 2100 bedded hospital provides professional, ethical and high quality patient care at affordable cost to the people. The institute realizes its social responsibility in alleviating suffering among the sick and preventing ill health among the healthy.

The field of medicine is undergoing rapid changes with every passing day due to changing epidemiology and advancing technology. It is imperative that we focus on futuristic techniques and innovations to keep up with the change for a healthier and safer future.

In this spirit, the institute is organizing 'Velammal Healthcare Innovation Awards 2019' to mark the event of the founder's day of the institute; November 4th. Doctors, Scientists, Research and Development professionals, Nursing and Paramedical professionals, Hospitals/Organizations, Educational Institutions, Manufacturers of medical equipment, Healthcare IT companies, Healthtech Start-ups, Pharmaceutical companies across the nation are invited to showcase their innovations in this grand competitive event being organized annually.

VMCH&RI has always utilized opportunities to widen the horizons of knowledge and skills among the medical fraternity. We believe that encouraging the creative minds by organizing such events is an important step towards making a change in the healthcare scenario of our country.

I invite all the innovators across the nation to showcase their innovations in 'Velammal Healthcare Innovation Awards 2019' and act as an agent of change to fuel the growth of healthcare sector in India.

Looking forward to your active participation.

Regards

Prof. R M Raja Muthiah
Dean, VMCH&RI, Madurai

Program Report:

Department of Ophthalmology, Velammal medical college arranged for a program on training ophthalmic assistants for coordinated work in camps. Camps play a major role in procuring patient load and hence vital functioning of camps is important. To develop the functionality of the camps, its members (i.e., Ophthalmic assistants) were trained on "Efficient Team Building For Effective Functioning Of Camps". This training was conducted on 08/11/2019. The allied Ophthalmic personnel from the department participated in the program.

Emergency care is an essential part of any health system and when it comes to paediatric emergency, timely and effective care is of almost importance. So, getting trained in this emergency care is absolutely essential to rescue these sick children. Having this in mind, with support and encouragement from our management, we had organized a IAP-Advance life support course and workshop in our hospital on 17th, 18th, 19th of December.

The event was conducted by Dr. S.Janani Shankar, IAP – ALS provider, Senior Consultant, Kanchi Kamakoti Child Trust Hospital. A total of 22 (6 Paediatricians and 16 Staff Nurse) participants attended the program. There were online 2-hour lecture classes on 17th, 18th and a hands-on training provided by Dr. S.Senthil Kumar (PICU Consultant MMHRC) and Dr. M.R.Lenin (PICU Consultant GRH) on 19th December. A post-test assessment was conducted on 21.12.2020. All the participants were immensely benefited by the course.

The course was co-ordinated by Dr. J.Jenish Rajma and Dr. T.Karthik Raj, Dr. V.Veeramanikanda Kathires. The trainers were felicitated by Dr. G.Mathevan HOD Department of Paediatrics.

VELAMMAL MEDICAL COLLEGE
HOSPITAL AND RESEARCH INSTITUTE
MADURAI - 625009

Report

Department of Ophthalmology, Velammal medical college arranged for a program for the teaching faculties of Velammal medical college on communication skills. To guide the postgraduates and to enhance their interest in article writing and publications, a workshop titled "Publish And Flourish – Ways To Write An Article" was conducted at the Department of Ophthalmology on 31/05/2021 for postgraduates. They were also introduced to systems of article search like Pubmed, Embase etc., and was also briefed regarding usage of Zotero software for citations.

Research And Methodology Workshop For Postgraduates

Velammal Medical College Hospital & Research Institute

Ref.No: 034/VMC /Circular – PG Workshop/2020

Date: 15.10.2020

CIRCULAR

To

All HOD's Post Graduates Teaching Departments

The IQAC, Medical Education Unit and Community Medicine department is hosting a Three Day Research Methodology Workshop for the fresh Post Graduate students. I request that arrangements may be made for all fresh Post Graduate students to attend the workshop. The aim of the workshop is to help the post graduate students to clarify and finalize their thesis / dissertation. The Tamilnadu Medical Council credit points will be awarded along with our institution certificate. Lunch will be provided on all days.

Name of the Workshop	:	Research Methodology Workshop for Post Graduate Students
Date	:	27.10.2020 to 29.10.2020
Time	:	8.00am to 4.00pm
Venue	:	College Lecture Hall 1

Title : Research and methodology workshop

Speakers : Dr.Jhansi Charles, HOD, Microbiology
Dr. Trupti, Professor, Community Medicine
Dr. Sriandal, Assistant Professor, Community Medicine
Dr. Samir Bele, HOD, Community Medicine
Dr. Sudharshan, Assistant Professor, Community Medicine
Dr. Omar, Assistant Professor, Community Medicine
Mr. Vijay, Statistician, , Community Medicine
Dr. Sudhir Ben, Associate professor, Community Medicine
Dr. Reena , Associate professor, Psychiatry
Dr. Raj Kishore, HOD, Pharmacology
Dr. Navinath, Consultant, Nephrology
Dr.J ohn Rajpathy, Professor, Physiology
Dr. Mohanty, Vice Principal, VMCH&RI

Date : 27.10.2020 – 29.10.20

Time : 8.00 am – 4.00 pm

Venue : 1st Floor Auditorium

Targeted audience : PG students.

VELAMMAL MEDICAL COLLEGE HOSPITAL AND RESEARCH INSTITUTE MADURAI - 625009

Summary:

The program started with an ice breaker event for the PG students organised by Dr. Trupti & Dr Sriandaal. Dr. John Rajpathy, MEU coordinator welcomed the students and faculty. The program was inaugurated by Dr. R. M. Rajamuthaiah, Dean, VMCH&RI.

The Vice Principal, Dr. P.K. Mohanthy talked about the importance of Research in Medicine. The first session was by Dr, Jhansi Charles who talked on Thesis and Dissertation, discussed difference between Thesis and dissertation and overview of how to take dissertation.

The second session was by Dr. Trupti on Qualitative and quantitative research, difference between them, introduction to quantitative study and advantages and disadvantages of both the research was explained in detail. Then Dr. Sriandaal talked on Epidemiological studies: Descriptive studies briefed on Defining study population, Disease under study, measurement of disease and formulation of Hypothesis. Following it there was a tea break After the Break Dr. Samir Bele explained about Analytical studies and RCT.

Types of analytical studies, uses of each study Limitations, Randomisation ,Bias and its types, Blinding and its types and different Phase trials was explained in detail.

Next session was on Framing Research Question. How to arrive at a topic of Research and how to frame Research question & suitability of the question was dealt in Detail.

The participants were asked to develop their own research question based on the knowledge gained so far. Post Lunch session was by Dr. Sudharsan on Literature search and Bibliography.

HOSPITAL AND RESEARCH INSTITUTE

MADURAI - 625009

Boolean logic, different websites for article search and use of Zotera application were discussed. Following this there was a group activity on Literature search.

Day 2 started with Dr. Gautham, Surgery PG summarising the activities and learning experience of Day 1.

The day's 1st lecture was by Dr. Omar on Sampling and its types followed by Mr. Vijay explaining how to calculate sample size and respective formulas to be used with examples.

Next there was a group activity on Sample size calculation. The next session was on Methodology by Dr. Sudhir Ben who explained about the Proforma of Methodology and how to fill up. A small exercise on writing up the methodology for the research question followed.

After the break Dr. Trupti spoke on questionnaire designing and validation of a questionnaire. The things to consider, while constructing a questionnaire, were dealt with. Following this Dr. Sriandaal spoke on Google forms and its use in Data collection and Data entry using excel sheet. Dr. Reena and Dr. Raj Kishore discussed about Medical ethics, functions of the institutional Ethics committee and the processes of approval.

Post Lunch Mr. Vijay demonstrated SPSS Application and its use in statistical analysis. The last session was a group activity on data collection using Google forms & data entry and data analysis using Excel.

Day 3 started with Dr. Sudhir explaining about variables and its types followed by a group activity of listing out examples for questions that produces different types of variables as answers.

Session 2 was by Mr. Vijay on Presentation of Data involving Demo & exercises in Microsoft Excel. Dr. Navinath spoke on how to properly write a Research Report with example of some standard journals.

He explained about the do's & don't' of writing a proper report. After a break, Dr. John Rajpathy spoke on Plagiarism and different types of it with examples and different types of Authorship.

Nature of the event	: CME
Title of the event	: CME on Tuberculosis
Academic Year	: 2020 -21
Date	: 2 nd march 2021
Guest Name	: Dr. Zufire Hassan Mohamed Khan, Deputy Director of Medical Service (TB)
Venue	: Hospital Auditorium
No. of Participants	: 92

Brief description of the event:

CME on Tuberculosis was organized by Department of community medicine VMCH&RI, on 2nd march 2021 in collaboration with National Tuberculosis Elimination Programme (NTEP) and Joint Effort to Eliminate Tuberculosis (JEET). The programme was conducted in 3rd floor hospital auditorium VMCH&RI.

The CME was inaugurated by lighting the lamp; memento was given to all the guest of honor. Dr. Zufire Hassan Mohamed Khan, Deputy Director of Medical Service (TB) was the chief guest. Dr. Raja Muthiah , VC, Dr. Thirunavukkarasu, Dean, Dr. Ramesh , MS , Dr. Mohanty, VP, Dr. Samir Bele , HOD- Community Medicine Inaugurated the Programme

Dr. Trupti Bodhare, Professor, CM, delivered lecture on "Journey from RNTCP to NTEP", she mentioned about End TB strategy, India strategic plan for TB 2017-2025 and emphasized on rational for making RNTCP to National Tuberculosis Elimination Program (NTEP). She also mentioned about various incentives given to private practitioners, treatment supporters and TB patient to intensify NTEP.

Dr. Zufire Hassan Mohamed Khan, DD- TB elaborated on "The Importance of private sector engagement for TB notification", he explained the importance of engagement of private doctors in notification of TB and explained how practically private doctors can be involved in the programme and he explained in detail the benefits of notification for both general public and doctor and the process of notification.

Dr. Prem Anandh, Pulmonologist explained about "Recent updates on diagnosis & treatment of TB", he mentioned about the Fixed dose drug regime and the newer drug included

VELAMMAL MEDICAL COLLEGE HOSPITAL AND RESEARCH INSTITUTE MADURAI - 625009

VELAMMAL MEDICAL COLLEGE HOSPITAL & RESEARCH INSTITUTE, MADURAI-09

in the programme and he also explained in detail about the drug band based on weight. Mr. Giftson, project manager JEET explained about JEET project. At end of each presentation token of appreciation was given to all the speakers. The programme ended with vote of thanks. Around 92 doctors from various departments including the post graduate students and few doctors from Madurai Medical College attended the CME. The CME was awarded 1 credit point by Tamilnadu medical council. The CME was followed by grand lunch.

Curriculum Implementation Support Program-II (CISP-II Online)
Jawaharlal Institute of Postgraduate Medical Education & Research
Puducherry-6.
MCI Regional Centre for National Faculty Development

Observer Report

I. CISP II Online Workshop Details

- 1. Name of Medical College where workshop was held:** Velammal Medical College Madurai -09
- 2. Date of workshop:** 19th and 20th Nov 2020
- 3. Name, Designation, Address, Email ID & Mobile No. of MEU Coordinator:**

Dr. John Rajpathy
Professor of Physiology
Velammal Medical College
Anupanadi
Madurai -09
Email: Johnrajpathy49@gmail.com
Mob: 9894391012

- 4. Name, Designation, contact details of Observer:**

Dr. Kadamabari
Professor of Surgery
HOD Department of Medical Education
JIPMER
Puducherry

II. Details of Participants

1. **Total no. of Faculty members who attended: 24**
(attach list in MCI format)

2. Designation of faculty participants:

- **No. of Professors - 7**
- **No. of Associate Professors – 4**
- **No. of Assistant Professors – 13**
- **No of Tutors/SR-**
- **Curriculum Committee members – 7 (all trained in CISP I)**
- **Cumulative Curriculum Committee members trained in CISP II – 2**
- **MEU faculty - 11 (all trained in CISP I)**

(i). Number (Percentage) of faculty of college trained in this CISP II workshop

	Designation wise					Department wise

III. Workshop evaluation by Convener/Observer

a. **Evaluation of Speakers** (on a scale of 1-5; 5 being excellent and 1 being below average – use tick (✓) mark)

In evaluating please consider quality of presentations, interaction with the participants, time management, appropriate use of learning aids, effectiveness of presentation etc.

Sr. No.	Name of the Faculty	Topic	Scale				
			1	2	3	4	5
1.	Dr. John Rajpathy	Registration, Inauguration, Icebreaking					
2.	Dr. John Rajpathy	Competency Based Medical Education (CBME)					
3.	Dr. Raj Kishore	IMG: Goals, roles & competencies					
4.	Dr. Suganthi	Deriving objectives from competencies					
5.	Dr. Suganthi	Linking competency, objective to teaching Learning Methods					
6.	Dr. Yegu	Proposed changes in Graduate Medical Education Regulations (GMER) 2019					
7.	Dr. Ramesh	Foundation course					
8.	Dr. Rena	AETCOM module					
9.	Dr. Ramesh	Early Clinical Exposure (ECE)					
10.	Dr. Mahesh	Electives					
11.	Dr. Mohanty	Student Doctor Method of clinical teaching					
12.	Dr. Trupti	Aligning & integrating competencies					
13.	Dr. Natarajarathinam	Skills training					

Prof. T. THIRUNAVUKARASU, M.D., D.A.
Dean
Velammal Medical College Hospital
and Research Institute
"Velammal Village"
Madurai-Tuticorin Ring Road
Anuppanadi, Madurai-625 009, T.N.

VELAMMAL MEDICAL COLLEGE HOSPITAL AND RESEARCH INSTITUTE MADURAI - 625009

14.	Dr. Sasikala	Assessment in CBME					
15.	Dr. Natarajarathinam	Aligning assessment to competency objectives & TLM					
16.	Dr. John Rajpathy	Curricular governance					
17.	Dr. John Rajpathy	Feedback & Open house					

b. Evaluation of Participants (on a scale of 1-5, 5 being excellent and 1 being below average – use tick (✓) mark)

Sl. No.	Parameters	1	2	3	4	5
1.	Punctuality					
2.	Interactions in sessions					
3.	Use of learning aids in group work presentations					
4.	Enthusiasm					
5.	Online connectivity & quality of interaction					

c. Workshop as a whole

a. Was the On Line workshop organized as per the structured format of MCI? **Yes /No**

If No, what were the deviations:.....

b. Was structuring of program schedule as per MCI Guidelines? **Yes /No**

If No, what were the deviations:.....

c. Was pretest & posttest done? **Yes /No**

d. Was on-line interaction satisfactory? **Yes/No, If not satisfactory, specify how to improve.**

VELAMMAL MEDICAL COLLEGE HOSPITAL AND RESEARCH INSTITUTE MADURAI - 625009

Mark the below-mentioned parameters on a scale of 1-5; 5 being excellent and 1 being below average – use tick (✓) mark)

Sl. No.	Parameters	1	2	3	4	5
1.	The pre-workshop administration					
2.	The pre-workshop information provided to participants					
3.	The workshop facilities & location					
4.	Learning resource material provided					
5.	Quality of learning resource material provided					
6.	Learning facilities including AV aids					
7.	Time allocation for sessions					
8.	Level of Participation					
9.	Quality of sessions					
10.	Learning environment					
11.	On-line interaction					

IV. Feedback from the participants

a. Important comments

List the important feedback received from the participants regarding the content and organization of the on- line workshop:

1.	Feedback about the workshop <ul style="list-style-type: none"> • Feel fulfilled • Got new knowledge • Group activity was good • Examples were good • Thought provoking
2.	What was good about the sessions <ul style="list-style-type: none"> • Lots of Good interactions • Content and explanation was clear
3.	List the deficiencies and challenges <ul style="list-style-type: none"> • Less time for activity • Font size in ppt to increase

MADURAI - 625009

Emergency care is an essential part of any health system and when it comes to paediatric emergency, timely and effective care is of utmost importance. So, getting trained in this emergency care is absolutely essential to rescue these sick children. Having this in mind, with support and encouragement from our management, we had organized a IAP-Advance life support course and workshop in our hospital on 17th, 18th, 19th of December.

The event was conducted by Dr.S.Janani Shankar, IAP – ALS provider, Senior Consultant, Kanchi Kamakoti Child Trust Hospital. A total of 22 (6 Paediatricians and 16 Staff Nurse) participants attended the program. There were online 2 hour lecture classes on 17th, 18th and a hands on training provided by Dr.S.Senthil Kumar (PICU Consultant MMHRC) and Dr.M.R.Lenin (PICU Consultant GRH) on 19th December. A post-test assessment was conducted on 21.12.2020. All the participants were immensely benefited by the course.

The course was co-ordinated by Dr.J.Jenish Rajma and Dr.T.Karthik Raj, Dr.V.Veeramanikanda Kathires. The trainers were felicitated by Dr.G.Mathevan HOD Department of Paediatrics.

Mercury Spillage Management

Name of the training program: Mercury spillage management

Date: 18.12.2020

Conducted by: Mrs. Maragatha Valli

Participants: Staff nurses

No. of participants: 61

The mercury spillage management program is aimed at training the staff nurses in handling conditions where there is accidental exposure to mercury and mercury related products. A total of 61 nurses from various departments attended the program. Training was given on how to handle mercury filled equipments like thermometer and blood pressure apparatus. Staffs were also given training on how to manage mercury spillage conditions and the treatment protocols to be followed in such scenarios.

Program Report:

Department of Ophthalmology, Velammal medical college arranged for a program for the non-teaching technicians of Velammal medical college on communication skills. Communication is an art and it needs expertise for effective patient – professional relationship. In order to enhance the communication skills, a Workshop on Communication Skills For Ophthalmic Technicians was conducted on 31/05/2021 at the department of Ophthalmology. The allied Ophthalmic personnel participated in this workshop.

Basic Life Support Training

Name of the training program: Basic Life Support training

Date: 17.12.2020

Conducted by: Mrs. Anitha Anibai

Participants: Staff nurses

No. of participants: 43

The basic life support training is a program conducted for all the staff nurses to train them the necessary skills required for saving the patient in an emergency. This training includes training the staff in cardiopulmonary resuscitation and emergency first aid techniques which will help the patient reach the nearby medical care center alive. A total of 43 staff nurses from emergency ward, medicine ward, labour ward, blood bank and dialysis ward attended the program. The training included a workshop in which the staff nurses were given hands on training on emergency resuscitation.

Fire Safety Training

Name of the training program: Fire safety training

Date: 09.12.2020

Conducted by: Mrs. Sheena

Participants: Staff nurses

No. of participants: 99

The fire safety training is given to staff nurses in the view of making them educated in fire safety hazards. This program is also for training them in the ways to behave in the situations where there could be accidental fires. The staff were trained in methods by which accidental fires can be avoided. They were also given fire safety drills and training in management of fire injuries.

Report

Department of Biochemistry, Velammal Medical College and Hospital, Madurai has organized a training program in "Online learning and assessment" on 15.09.2021 from 10am to 12 pm. The following points were covered:

Introduction to online learning by Dr. S.B.Reena Rosalind, Associate Professor, Psychiatry.

Importance of online learning by Dr. M.Parineeta Suman, Associate Professor, Anatomy.

Assessment of online learning by Dr. M.Saravanan, Associate Professor, Physiology.

Challenges in online learning by Dr. A.Hariharan, Assistant Professor, Biochemistry.

Advantages and disadvantages by Dr. S.Sindhu, Assistant Professor, Pharmacology.

Radiation Safety and Fire Safety Training

Name of the training program: Radiation Safety and Fire Safety Training

Date: 05.02.2022

Conducted by: Mrs. Padmavathi and Mr. Ezhilarasan

Participants: Staff nurses and paramedical workers

No. of participants: 277

Radiation safety training was conducted to all the staff nurses and paramedical workers working in Velammal medical college hospital. A total of 277 staff nurses and paramedical workers attended the program and training. They were educated about the health hazards of radiation injury and were given hands on training in protocols to be followed in such instances. This was followed by fire safety training in which they were given emergency drill training in cases of accidental fires.

VENUE : 3rd Training Hall in VMCH

Date: 27.02.2022

VELAMMAL MEDICAL COLLEGE

HOSPITAL AND RESEARCH INSTITUTE

MADURAI - 625009

Program report:

Department of Pediatrics, Velammal Medical College and Hospital, Madurai has organized a training program in "Basic Neonatal Resuscitation Program – First Golden Minute project" on 27.2.2022 from 9 am to 1 pm in 3rd floor training hall, VMCH.

The program was mainly designed for the post graduate students of Paediatrics, Obstetrics and gynaecology and the staff nurses of these departments who were involved in neonatal resuscitation and to develop their skills in assessment and management of sick neonates requiring early resuscitation.

The following points were covered:

Identification of sick new born – Dr. Jenish Rajma

Preparations to be made in delivery room – Dr. T.Karthikraj

1st minute Assessment – Dr. Jenish Rajma

BLS in newborn – Dr. T.Karthikraj

Hands on training for the participants - Dr. Jenish Rajma, Dr. T.Karthikraj

Basic Life Support

Name of the training program: Basic Life Support training

Date: 20.07.2021

Conducted by: Mrs. Anitha Anibai

Participants: Staff nurses

No. of participants: 115

The basic life support training is a program conducted for all the staff nurses to train them the necessary skills required for saving the patient in an emergency. This training includes training the staff in cardiopulmonary resuscitation and emergency first aid techniques which will help the patient reach the nearby medical care center alive. A total of 115 staff nurses attended the program. Staff nurses from emergency medicine departments, medicine department, ICU, surgical departments attended the program.

End of Life Care Training

Name of the training program: End of life care training

Date: 19.07.2021

Conducted by: Mrs. Vimali Anjugam

Participants: Staff nurses

No. of participants: 67

This training program was conducted for staff nurses in medical and surgical wards which take care in the patients who are in the terminal illness such as cancer patients. The program is aimed at training the staff nurses in the special care that is needed in such patients and such care cannot be given in regular wards. Total of 67 staff nurses participated in the training. Staff nurses from medicine wards, surgery wards, ICU and oncology participated.

Fire safety training

Name of the training program: Fire safety training

Date: 09.08.2021

Conducted by: Ms. Malar

Participants: Staff nurses

No. of participants: 63

The fire safety training is a yearly training program and is given to staff nurses in the view of making them educated in fire safety hazards. This program is also for training them in the ways to behave in the situations where there could be accidental fires. The staff were trained in methods by which accidental fires can be avoided. They were also given fire safety drills and training in management of fire injuries. Staff nurses from departments like medicine wards, surgery wards, labour ward, OG wards, ICU, ENT wards, orthopaedics wards took part in the training.

Needle Stick Injury Management

Name of the training program: Needle Stick Injury Management

Date: 02.08.2021

Conducted by: Ms. Malar

Participants: Staff nurses

No. of participants: 73

Needle stick injury is a common injury in the clinical wards and can cause significant mental distress to the health care workers. A program aimed at educating the staff nurses about the circumstances in which needle stick injuries and training them in handling such instances was arranged. Total of 73 staff nurses from various departments and wards attended the program and training.
