MEDICAL EDUCATION UNIT

Workshop on Emerging Trends in Medical Education titled "**The integration of artificial intelligence (AI) in Medical Education**"

Date: 07-04-2022 Venue: College Board Room

Report

The workshop titled Educational Technologies in "**The integration of artificial intelligence (AI) in Medical Education**" was hosted by the Medical Education unit as an ongoing faculty training program in Emerging Trends in Medical Education. The program was organised and conducted in the college board room on 07-04-2022 between 8:00 am to 12:00 noon. The program started with inauguration. The dean encouraged the staff to apply themselves to the newer emerging trends in medical education. The importance of newer methods in pedagogy were stressed to be of utmost importance in student learning by the MEU coordinator during the introduction. Dr. Alli Professor of CSE VCET gave a fantastic presentation on What is Artificial intelligence. Dr. Marriappan HOD of Radiology highlighted the importance of Artificial intelligence in teaching Medicine. Dr. Rajkishore HOD Pharmacology enlightened the participants on the framework for acquiring skills in artificial Intelligence for medical education. All sessions were followed by oral feedback from the participants and expressed satisfaction over the knowledge and skills acquired during the workshop. The program closed with comments from the MEU coordinator with the announcement regarding the next topic and date of the next workshop.

Basic course in Biomedical Research

Date – AUGUST 2020

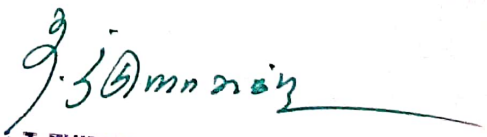

Organized by - NMC

No. of Participants. - 15

Details

NMC has organized a training program in " Basic Course in Biomedical Research". The following points were covered:

- 1) How to do a review of literature
- 2) How to conduct clinical trials
- 3) How prepare a protocol
- 4) How to select a study population
