Activity Report

Topic Name : X-Ray imaging & Interpretation

Introduction: Dr. Kumaran

Objective: Physics, Techniques, position, Pit Falls & Interpretation.

Date: 08.02.2019 & 09.02.2019

Course Duration: 8+8 Hours

Location: Lecture Hall, Department of Radiodiagnosis.

Organized by: Department of Radiodiagnosis

Audience: Final year MBBS Students

Speaker: Dr. Yogaraj

Method adopted: Power point presentation – Seminar.

Materials used: Projector & Laptop

Course time table:

| Date | Time | Topic | Speaker |
|------------|--------------------|--------------------------------|-------------|
| 08.02.2019 | 8.45 am to 5.45 pm | X-Ray imaging & Interpretation | Dr. Kumaran |
| 09.02.2019 | 8.45 am to 5.45 pm | X-Ray imaging & Interpretation | Dr. Yogaraj |
| | | | |
| | | | |

Description:

The program started with introduction speech about the CME regarding conventional radiology by Dr. YOGARAJ Associate Professor. The program was inaugurated by our DEAN DR. RAJA MUTHAIAH. The welcome speech to the dignitary and students was delivered by Head of the Department of Radio-diagnosis DR. KRISHNA KUMAR.

The First lecture was started by MR. SATHEESH, (RADIOLOGY MRI TECHNOLOGIST) regarding BASIC X-RAY IMAGING. The second guest lecture was given by MS. JASMINE (RADIOLOGY MRI TECHNOLOGIST). She has started the lecture with CHEST X-RAY ANATOMY & NORMAL VARIANTS. She has spoken about various methods & techniques used in Chest X-ray pathological conditions. The third lecture was again given by Dr. KUMARAN Assistant Professor and spoke about ABDOMEN X-RAY - NORMAL & ABNORMAL.

On second day the first lecture was given by DR. YOGARAJ Associate Professor and spoke about SKELETAL SURVEY - IMAGING & FINDINGS. The second guest lecture was given by MR. SATHEESH, (RADIOLOGY MRI TECHNOLOGIST). He has started the lecture with X-RAY BONE

X-RAY IMAGING & INTERPRETATION – VALUE ADDED COURSE

AGENDA

DAY – 1 (08.02.2019)

| TIME | TOPIC | SPEAKER |
|----------------------|---------------------------------------|--|
| 08.30 AM to 10.30 AM | Basic X-Ray imaging | Mr. Satheesh (Radiology Technologist) |
| TEA BREAK | | |
| 10.45 AM to 12.45 PM | Chest X-Ray Anatomy & Normal Variants | Ms. Jasmine (Radiology Technologist) |
| LUNCH BREAK | | |
| 01.30 PM to 03.30 PM | Chest X-Ray – Pathological conditions | Mr. Satheesh (Radiology Technologist) |
| TEA BREAK | | |
| 03.45 PM to 05.45 PM | Abdomen X-ray – Normal & Abnormal | Dr. Kumaran |

DAY – 2 (09.02.2019)

| TIME | TOPIC | SPEAKER |
|----------------------|--------------------------------------|--|
| 08.30 AM to 10.30 AM | Skeletal Survey – Imaging & Findings | Dr. Yogaraj |
| TEA BREAK | | |
| 10.45 AM to 12.45 PM | X-ray bone age prediction | Mr. Satheesh (Radiology Technologist) |
| LUNCH BREAK | | |
| 01.30 PM to 03.30 PM | X-Ray imaging in arthritis | Dr. Kumaran |
| TEA BREAK | | |
| 03.45 PM to 05.45 PM | Quiz | Ms. Jasmine (Radiology Technologist) |

Report on Value Added Course

Topic : Basic Computer Skills for MBBS Students

Date : 5th and 6th April 2019

Venue : Lecture Hall : 1

Resource persons:

Dr.Mahesh Krishna

Dr.Yogesh C

Dr.Surangama Chakraborty

Dr.Rajan

Department involved : Forensic Medicine & Toxicology.

Audience : First year M.B.B.S. Students.

Number of Participants : 131

Method of delivery : Lecture and group activity.

Objective for the Programme: To become a effector presenter. To minimize error during working, patient care & early diagnosis. To get updated knowledge and remain as lifelong learner. To learn easy and swift computer skills. Most important be aware of research & innovation around the world and able to collaborate various agencies.

Description:

The program was inaugurated by Dean of Velammal Medical College Hospital and Research Institute. Course introduction was done by Dr.Mahesh Krishna. Dr. Yogesh C started the session about Introduction to Computer application in medical sciences. Following it Dr. Surangama explained about Use of Microsoft word & its application, Dr. Rajan briefed on Power point presentation. Dr Yogesh C explained about the Use of media & Algorithm for PPT. Afternoon Session on Microsoft Excel, concept & analysis of data was handled by Dr Mahesh Krishna

Activity Report

Topic Name: Geriatric care

Introduction: Ageing is a natural process. There are many normal physiological changes associated with increase in age. There are also many pathological changes that can occur with ageing process. Although adults have the same basic physiology, the care needed by the elderly people differs considerably from the average adult human being. In order to understand the concept of geriatric care better, the knowledge of the students must be updated regularly.

Objective: To sensitize the students in the topic of geriatrics and make them understand the level of care needed by the geriatric population.

Date: 1st and 2nd of March 2019

Course Duration: 16 hours of duration (2 days)

Location: Lecture Hall 1, First floor, Velammal Medical College Hospital and Research Institute, Madurai

Organized by: Department of Physiology

Audience: First year MBBS students

Speaker: Faculties of Physiology, General medicine

Method adopted: Lecture

Materials used: Lecture hand-outs

VELAMMAL MEDICAL COLLEGE HOSPITAL AND RESEARCH INSTITUTE MADURAI - 625009

Department of Physiology, Velammal Medical College Hospital and Research Institute, Madurai, Tamilnadu in association with Departments of general medicine had organised a certifiable value-added course to First Professional MBBS students (2018-19 batch) on 1st and 2nd March 2019.

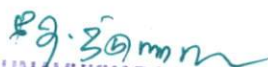

The program spanned for 16 hours of duration covering the salient aspects and importance of geriatric care. Eminent speakers from various departments gave talks on the core concept of Health problems of the aged, psychological problems faced by the elderly people and their clinical importance apart from what they have learnt in their regular curriculum and practical sessions. Role of yoga in geriatrics and research in geriatric care was Enlightened to the students.

In the second day afternoon, after the recap the prevention of Elderly Abuse and Sleep Disorders in Elderly were discussed with students.

Dr. A. Sangeetha, assistant professor of general medicine spoke about the Prevention and Management of Geriatric Health problems in real life. Finally the importance of nutritive care in aged people were discussed. The program ended with feedback session

VELAMMAL MEDICAL COLLEGE

HOSPITAL AND RESEARCH INSTITUTE

MADURAI - 625009

Description: An academic session regarding geriatric care was conducted by the department of Physiology along with the department of general medicine for two days. The faculties from the department of Physiology talked about the process of ageing and the physiological changes associated with it on the first day of the event. Then the topics of research opportunities in geriatrics and the importance of yoga in daily life were discussed.

On the second day of the event the pathological processes that are associated with ageing were described and the common diseases and disorders in the elderly population were discussed by the faculty from the department of general medicine. Then the national health programmes in geriatric care were elaborated. Then the second day's session was concluded.

Outcome Analysis: A feedback session was conducted after the conclusion of the second day's event.

Communication Skills and Personality Development

Introduction:

Effective communication skills and a strong professional persona are essential attributes for success in any field, but especially in healthcare settings. As medical professionals, MBBS students will interact with patients, families, and colleagues on a daily basis and the quality of these interactions can play a critical role in outcomes, patient satisfaction, and the overall success of one's career. Communication skills and personality development therefore represent crucial areas that MBBS students must develop and hone throughout their education and career. Through the development of active listening skills, empathy, emotional intelligence, resilience, and other key traits, MBBS students can enhance their ability to communicate effectively, work collaboratively, and deliver high-quality care.

Course outline:

To teach basic communication and counseling skills to second-year undergraduate students to improve their overall clinical competence, performance on clinical patient examination and patient interview skills.

Course duration : 2 days

Course date : 22nd and 23rd June 2019

Venue : Lecture Hall 2, first floor, Velammal medical college

MADURAI - 625009

Course Schedule:

In conclusion, effective communication skills and personality development are integral to the success of MBBS students in their chosen field of healthcare. Dr. Usha Ravikumar and Dr. Yegumuthu stressed the importance of developing active listening skills, building positive working relationships, mastering the art of effective communication, and fostering emotional intelligence and resilience. These skills will enable MBBS students to effectively interact with patients, their families, and colleagues, and to enhance the overall quality of care provided. By prioritizing these traits and investing in their ongoing development, MBBS students can establish a strong professional persona and become successful healthcare professionals. Meeting ended with thanking The Dean, Dr. Usha Ravikumar, Dr. Yegumuthu and other faculties for their valuable insights and contributions to this important topic.

Activity Report

Women's Mental Health Through The Ages

Introduction:

The place of women in society is in constant flux. From being seen as the traditional 'carer-nurturer parent' / 'stay at home mom, women have steadily grown to become an integral part of the workforce over the last 50 years. Much of the current debate centers around work-life balance for women which is of prime importance in helping maintain optimal mental health.

Yet physiologically men and women have unique mental health challenges. Women in particular are predisposed to develop different types of mental health problems ranging from peri partum emotional disorders to post-menopausal mental health problems.

Women also have lesser access to mental health care services in traditional societies of developing nations such as ours.

Thus, address women's mental health is of prime importance in any developing society.

Objective:

1. The course aims at creating awareness among the medical students about the types of emotional challenges faced by women across their lifespan.
2. At the end of the course the students are able to possess knowledge to screen and assess mental health conditions specific to women.

MADURAI - 625009

Certificate Distribution

Description: The value added course on Women's Mental Health through the ages acts as an opportunity for generating awareness among the students. Integrating departments outside Psychiatry will help the students understand the magnitude of the problem on the community and the varied symptom presentation of these conditions.

Outcome Analysis : At the end of this session students will have better understanding on the specific mental health challenges faced by women throughout their lifespan. The outcome is subjectively assessed by feedback questionnaire rated by the students and pre-test and post test questions.
