Special Programmes for slow learners

The slow learners students whose percentage less than 30 in the internal test conducted in the second time they were given additional priority by individual and group special classes in the evening on alternate days of the week from 4 to 5:00 p.m. In that evening classes they were showed methods to write the important points in short notes and assignments were also given from important topics for them to complete and they were evaluated by the faculties and the feedback discuss with them in the next week.

Special Programmes for Advanced learners

Student who scored more than 60 % were considered as advanced learners. This group of students were trained for intercollege QUIZ and model making competition. For this group of students more exposure to clinical biochemistry was done by teaching them how fully automated biochemistry functions and steps in ELISA are taught. This group of students are encouraged to do research with the guidance of faculty and also encouraged to apply for ICMR STS projects. Seminar topic on recent advancement in biochemistry or current topic was given to the student to present in the class.

(M.B.B.S., 2017-2018 batch)

Special Programmes for slow learners

From the second internals the students were divided as slow learners if the score is less than 30% they were given additional care in the form of doubt clearing classes in the evening 3 days a week Monday Wednesday and Friday. In the evening class one essay question will be selected and an overview about the topic will be given to student about how to present the answer for the question and what are the important point to be written for the question. And at the end of the week one of the essay question which has been thought in the week evening class was given as assignment and the it will be corrected by the faculty and given back to the student with the feedback on the next week.

Special Programmes for slow learners

The students who scored less than 30% in the second internal assessment were selected and special care were given by evening classes for three days a week namely Monday, Wednesday and Friday between 4.00pm to 5.00 pm. In the evening class doubt clearance of same day's morning class was also done. The format for writing short answers were also discussed in the evening class. The students were assigned with essays from the week's portion, the same were evaluated by the faculty's and results discussed therefore. Major pathways in carbohydrate, lipid and protein metabolism were also given as assignment to improve the presentation skills of the students. Once a month student was divided into groups and group discussion were done by students under the supervision of the faculties.

M.B.B.S., 2019-2020 batch

Special Programmes for slow learners

The entire batch was thoroughly screened and students who are scoring less than < 30% marks in class tests and internal assessment were identified. This group of students needed special attention as they were not able to present their answers in the required format. This help was extended to them by the department as the faculties discussed individual topics and clarified the doubts. The students were given assignments, in such a way that all important topics for the exam were covered. The students were required to write the questions and answers in their assignment books and submit the same and get it corrected from the department faculties. Evening classes were scheduled especially for the slow learners and to help them cope with the subject.

Special Programmes for Advanced learners

The students who were able to grasp the topics and perform well in the internal assessment exams were noted. These students were keen learners and interested in academic activities like quiz, conference presentations, debates in class etc. They were given opportunity and encouraged to participate in events of academic interest like quiz, poster presentation and model making. The students were enthusiastic to take up small projects under the guidance of faculty and present these research work as posters in intercollegiate competitions. Those interested in ICMR STS projects were encouraged to apply for the same.

Circular

Date: 20.04.2022

Dear Students/staff members,

This is informed that a Remedial class will be conducted for First year M.B.B.S., Students (2021-22 batch) on every Monday and Friday from 22.04.2022 to 20.05.2022.

Faculty in charge: Dr.A.Hariharan Associate Professor, Department of Biochemistry

Timings: 4.00 – 5.00 PM

Venue: Biochemistry Demo Room – II.

Duration: One hour every Monday and Friday.

Signature of HOD

Copy to:

- 1. Vice Principal**
- 2. Faculty incharge**
- 3. Students**

List of Advanced Learners

List of Student Participated In E-Poster Presentation

1. **Topic:** Assessment of Diabetes risk using Indian Diabetes Risk Score amongst Student Population

Student Name: Narpavi K, 1st year M.B.B.S., (2021-22 batch)

Guide Name: Dr. A. Hariharan

2. **Topic:** Correlation of Glycemic status and serum uric acid in diabetic patients

Student Name: M.Thanigai Murugan, 1st year M.B.B.S.,

Guide Name: Dr. A. Hariharan

3. **Topic:** Impact of Renal and hepatic dysfunction on COVID 19 patients' severity and outcome

Student Name: Abitha H R, Asmitha, 1st year M.B.B.S.,

Guide Name: Dr. A. Hariharan

4. **Topic:** Comparison of various severity scoring system in COVID19 patients

Student Name: ANUSUYA P, 1st year M.B.B.S.,

Guide Name: Dr. A. Hariharan

5. **Topic:** Correlation Study of Glycated Haemoglobin with Inflammatory Status, Cardiometabolic Index and Microalbumin among Type 2 Diabetes Mellitus

Student Name: Mr. Shanmugasundram, 2nd year M.B.B.S.,

Guide Name: Dr. K. Suganthi

6. **Topic:** Study of Serum HDL Cholesterol and Triglycerides-Simple routine biochemical parameters to predict the prognosis of Sepsis.

Student Name: Afrah Abdul Malick 2nd year M.B.B.S., (2021-22 Batch)

Guide Name: Dr. M. Jeyakumar, Dr. Viveka M.

VELAMMAL MEDICAL COLLEGE
HOSPITAL AND RESEARCH INSTITUTE
MADURAI - 625009

7. **Topic:** Association of Thyroid Function and Glycemic Control in Subjects across Glycemic Spectrum: Experience at a Tertiary Care Centre

Student Name: Abinaya G, 1st year M.B.B.S., (2021-22 Batch)

Guide Name: Dr. Mamatha T Shenoy

8. **Topic:** Study of serum electrolytes in type 2 diabetes mellitus

Student Name: Deepshika S, 1st year M.B.B.S., (2021-22 Batch)

Guide Name: Dr. Viveka M

9. **Topic:** Prevalence and determinants of obesity in young adults; A cross sectoral study from South India

Student Name: Divya K, 1st year M.B.B.S., (2021-22 Batch)

Guide Name: Dr. Asothai Raju

10. **Topic:** Study of Dyselectrolytemia in a tertiary care hospital

Student Name: L. Dheepa Gayathri, 1st year M.B.B.S., (2021-22 Batch)

Guide Name: Dr. Viveka M

11. **Topic:** A comparative study of thyroid and lipid profile among diabetic and non-diabetic mellitus adults

Student Name: Dharsni K, 1st year M.B.B.S., (2021-22 Batch)

Guide Name: Dr. K Suganthi

12. **Topic:** Comparison of Thyroid and Renal function in Subclinical Hypothyroid and Euthyroid Adults: Observations at a Tertiary Care Centre

Student Name: Srivarshini S, 1st year M.B.B.S., (2021-22 Batch)

Guide Name: Dr. Mamatha T Shenoy
