HOSPITAL AND RESEARCH INSTITUTE
MADURAI - 625009

Department of Pharmacology

**Consolidated report of Special programs for Advanced learners and
Slow learners for 5 years**

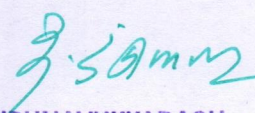

Year	No. of Slow Learners	Remedial Classes Conducted	No. of Advanced Learners	Opportunities given for Advanced Learners
2017-18	28	• Remedial classes conducted • Assignments - Activity work sheet • Academic counselling	89	• Journal club presentation • Medal exam
2018-19	49	• Remedial classes conducted • Assignments - Activity work sheet • Academic counselling	68	• Journal club presentation • Medal exam
2019-20	6	• Remedial classes conducted • Assignments - Activity work sheet • Academic counselling	109	• Journal club presentation • Medal exam

VELAMMAL MEDICAL COLLEGE HOSPITAL AND RESEARCH INSTITUTE MADURAI - 625009

Department of Pharmacology

Special programs for slow performers

- The computing of marks for internal examinations is done by the faculty members of the department. For each internal assessment, a detailed analysis is made and the slow performers are identified (<35%)
- For the slow performers, special care is taken by the department in the form of time bound Assignments given to them. The students maintain a separate Assignment notebook with them. On completion of each assignment, the notebooks are evaluated by the faculty members for their authentic work.

In case of any discrepancies in this process, the individual student is given academic counselling by the Head of the Department.

- During theory classes, the slow performers are advised to occupy the front desks and separate activity sheet is distributed to them. The concerned faculty prepares an activity based on the topic to be covered and distributes to the slow performers. The slow performers are expected to listen to the class and complete the activity worksheet given to them and submit it back to the concerned faculty at the end of the class. These activity worksheets are evaluated by the faculty member and the progress of the slow performers are checked.
- Monthly academic counselling is provided to the slow performers by the Head of the Department.
- Care is taken by faculty in monitoring the performance of slow learners. Faculty members do periodic interaction with parents about the performance of slow learners.
- Learning material prepared by subject handling faculty members is subject to peer review in the department for further refinement.
- Further faculty members revise the tough topics as per the student's requisition and provide university question bank and discuss the way of presenting the answers in the exam to score marks.

Special programs for Advanced learners:

For advance learner – the department provides an extended support to build a strong knowledge base of the subjects. Beyond university exams, advanced learners are encouraged and motivated to take part in various academic activities like Quiz competition, Poster/paper presentations, research projects, represent themselves in various college professional bodies, attend workshops and seminars. Special attention is provided to these students to enhance their soft skills and develop a holistic approach.

Encouraging the advanced learners to enroll in the Pharma club which is conducted regularly in the Department wherein the subject of pharmacology is discussed in different angles involving image-based discussion, case scenarios and group activities.

As a part of motivation for the forthcoming batches, the advanced learners based on their performance in the University examination (who scored >75% in their University examinations) are invited to the department and introduced to the junior batches. A felicitation programme is arranged for the advanced learners congratulating their success over exams.

Medal Exam: Various student activities and initiatives are encouraged by our management in order to promote in-depth learning of all subjects by our students. Under the same spirit, a message was given by the management to organize a medal exam for identifying outstanding students with keen interest and exemplary motivation to learn each medical subject. The department of Pharmacology took this up as a challenge and decided to conduct a comprehensive medal exam in three stages with three rounds. It was planned that the medal exam of each year will be conducted in memory of eminent pharmacologists of the past. The Pharmacology medal exam of 2019 was dedicated to the memory of the great Indian clinical pharmacologist Dr. Ranjit Roy Choudhary.
