Activity Report

Description:

The course commenced with an inaugural session by Dr. Josephine Latha, introducing the significance of AI in modern workplace environments. Subsequent sessions, conducted by various experts, delved into specific AI features integrated into Microsoft Word, PowerPoint, and Excel.

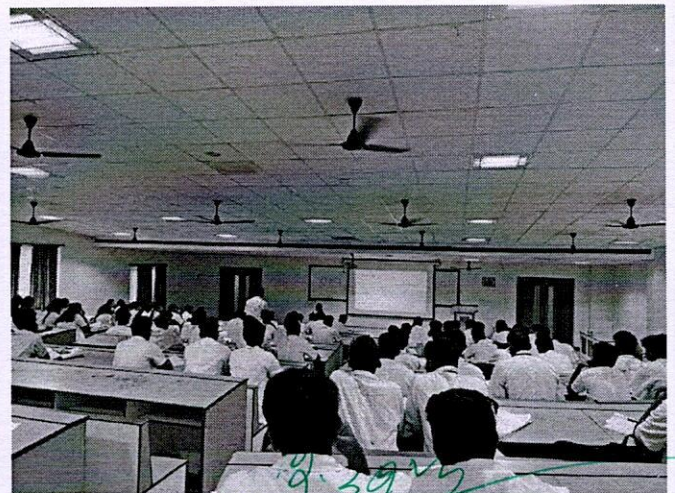

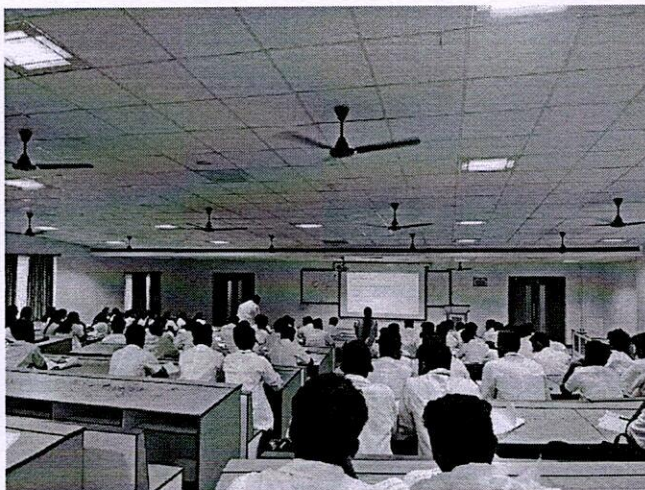

Participants engaged in hands-on practice sessions to apply the learned concepts, followed by discussions on AI-driven writing assistance, intelligent data analysis, advanced formatting suggestions, and AI-powered presentation coaching.

The course emphasized practical application and provided participants with the opportunity to explore and familiarize themselves with AI-powered tools such as AutoSave, Researcher, Editor, Grammarly integration, Word suggestions, Design Ideas, Morph transition, Ideas, and Insights.

Outcome Analysis:

The course received positive feedback from participants, indicating an improved understanding of AI integration in Microsoft Office applications.

Programme Report for Value-Added Course on Pharmacology of Emergencies and Acute Care

Date: March 9–10, 2024

Venue: VMCH&RI, Madurai

Duration: 2 days (16 hours total)

Objectives

The Value-Added Course on Pharmacology of Emergencies and Acute Care was designed to equip second-year MBBS students with knowledge beyond the traditional curriculum. The course provided insights into the principles of pharmacology essential for managing acute and emergency situations, preparing students for critical care scenarios they may encounter in clinical practice.

Day 1: Introduction to Emergencies and Acute Care Pharmacology

Date: March 9, 2024

8:00 AM - 8:15 AM

Inaugural Session

Speaker: Dr. Raj Kishore Mahato, Prof & HOD, Department of Pharmacology

Highlights: The course was inaugurated by Dr. Mahato, who introduced the participants to the objectives and structure of the program. He emphasized the relevance of pharmacology in acute care and the need for a strong foundation in managing emergencies.

8:15 AM - 9:45 AM

Session 1: Principles of Pharmacology in Emergency and Acute Care

Speaker: Dr. Muthu Meera, Assistant Professor

Overview: Dr. Meera discussed the fundamental pharmacological principles that apply specifically to acute and emergency care, setting a theoretical base for the sessions that followed.

10:00 AM - 11:30 AM

Session 2: Drug Management in Acute Cardiovascular Emergencies

Speaker: Dr. Susila, Professor

Overview: This session focused on cardiovascular emergencies, covering the drugs and protocols essential for rapid intervention.

11:30 AM - 1:30 PM

Session 3: Pharmacology of Respiratory Emergencies

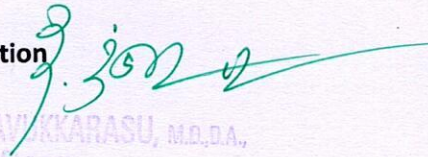

Speaker: Dr. Anitha, Senior Resident

Overview: Dr. Anitha provided an in-depth review of respiratory emergencies, including drugs used for acute asthma, COPD exacerbations, and other respiratory crises.

2:00 PM - 3:30 PM

Session 4: Pharmacological Management in Shock and Fluid Resuscitation

Speaker: Dr. Raj Kishore Mahato

Prof. T. THIRUNAVUKKARASU, M.D., D.A.,
Dean
Velammal Medical College Hospital
and Research Institute
"Velammal Village"
Madurai-Tuticorin Ring Road
Anuppanadi, Madurai-625 011

Overview: This critical session addressed the pharmacologic management of shock, emphasizing fluid resuscitation, vasopressors, and other interventions.

3:45 PM - 5:00 PM

Session 5: Acute Pain Management in Emergencies

Speaker: Dr. Muthu Meera

Overview: The final session of the day covered the pharmacology of acute pain management, providing students with a structured approach to using analgesics in emergency settings.

Day 2: Advanced Pharmacology in Acute and Critical Care

Date: March 10, 2024

8:00 AM - 8:15 AM

Recap and Introduction to Day 2 Topics

Speaker: Dr. Raj Kishore Mahato

Highlights: Dr. Mahato provided a recap of the previous day's sessions, setting the context for the advanced pharmacology sessions planned for the day.

8:15 AM - 9:45 AM

Session 6: Pharmacology of Antidotes in Toxicological Emergencies

Speaker: Dr. Muthu Meera

Overview: This session focused on the pharmacology of various antidotes used in toxicological emergencies, essential knowledge for managing poisoning and overdose cases.

10:00 AM - 11:30 AM

Session 7: Management of Sepsis and Infection in Acute Care

Speaker: Dr. Susila

Overview: Dr. Susila explained the pharmacologic protocols for managing sepsis, a life-threatening emergency, detailing the role of antibiotics and supportive therapies.

11:30 AM - 1:30 PM

Session 8: Neuropharmacology in Acute Neurological Emergencies

Speaker: Dr. Anitha

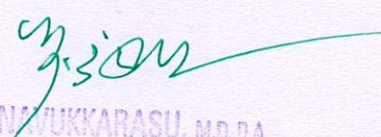

Overview: This session addressed neurological emergencies, with an emphasis on the pharmacologic approach to managing stroke, seizures, and traumatic brain injuries.

2:00 PM - 3:30 PM

Session 9: Emergency Drug Administration and Routes in Acute Care

Speaker: Dr. Muthu Meera

Overview: Dr. Meera provided practical guidance on emergency drug administration, covering routes, dosages, and timing crucial in life-threatening situations.

Conclusion

The course successfully achieved its objectives, providing students with comprehensive knowledge and skills in managing pharmacology within acute care and emergency settings. Faculty feedback highlighted the relevance of the content, while students expressed appreciation for the interactive sessions and case-based discussions that enhanced their learning.

Acknowledgements

We extend our sincere gratitude to all speakers, faculty, and organizing staff for their invaluable contributions.
