Research & Innovations

Students of First year MBBS were sensitized to research and methodology through Value Added Course and sessions conducted by Research wing of Physiology Student club.

Value added course, involved faculties of various departments, sharing their wealth of experience in research. This effort was not just in instilling the idea of research but to improve their understanding of the medicine as a whole to be able to at the top of bloom's taxonomy, contributing to innovations and research.

Through this initiation, we saw an overwhelming response from the students in terms of project proposals (Pilot projects and ICMR proposals).
