Department of Physiology

Teaching-Learning nurtures Creativity

Creativity is a vital skill in today's dynamic world, essential for innovation, discovery and adapting to new challenges. In our Educational institution, we play a crucial role in fostering creativity among students. By employing diverse teaching and learning methods, we educators create an environment that nurtures creative thinking and expression. During this AY 2023-24, Department of Physiology conducted Model making competition and Poster making competition to maximize the creative load of academics by the students. As in favour of famous proverb, "Learning by doing", our students flexed their creative muscle by putting out a display of physiological concepts in various models and designs. The model ideas were picked up via lot system to prevent any bias and afterwards the students were allotted to a moderator in faculty of the department. They met twice during every week during 4 to 5 PM time slot and discussed their ideas and their progression was kept in check. Also the students collaborated along with Mr.Rajan from biomechanical department to augment their ideas and worked in tandem to get the desired output. To shore up their knowledge of Physiology, classes were allocated for model making, to make the students understand it better to make it into a reality out of the textbooks.

**Poster Competition Report: Fostering Creativity and Learning Among First-
Year MBBS Students**

The Department of Biochemistry recently organized a poster competition for the first-year MBBS students (2023-2024 batch). The primary aim of the event was to encourage creativity, teamwork, and a deeper understanding of biochemistry among students. For the competition, the department divided the students into small groups, each comprising ten members. This group-based approach not only fostered collaboration but also allowed students to share and discuss diverse perspectives on various topics.

Students were given the freedom to choose any topic related to biochemistry for their posters, which gave them the opportunity to explore areas of their interest within the subject. The posters had to be carefully crafted, ensuring that the information presented was both accurate and visually appealing. Students were required to submit their posters by the designated deadline.

After submission, all the posters were thoroughly reviewed by the faculty of the Biochemistry Department. The assessment focused on several criteria, including the depth of knowledge, creativity, visual presentation, and clarity of the information displayed. The faculty evaluated each poster with meticulous attention to ensure fairness and accuracy in the judgment process. The top three posters, which stood out for their exceptional quality, were awarded prizes and certificates as recognition of the students' efforts. The competition not only stimulated students' interest in biochemistry but also provided them with an opportunity to develop skills in research, teamwork, and presentation.

IAPSM National wide World Health Day Quiz 2024

Preliminary Round: 02/04/2024

Finals: 08/04/2024

Venue:

Preliminary Round&Finals: Lecture Hall, VMCH&RI

Organizing Team: Departments of Community Medicine in co-ordination with IQAC, VMCH & RI

The IAPSM Quiz was conducted on 02.04.2024 -Preliminary Round & 08.04.2024- Final round at Lecture Hall-3, VMCH& RI. The event was organized by Department of Community Medicine under the guidance of Dr Samir Bele ,Head of Department , Community Medicine and the support of the Indian Association of Preventive and Social Medicine (IAPSM). The quiz aimed at testing the knowledge of students in the field of Public Health and Preventive Medicine. Questions for preliminary and final round were circulated through Nodal College of Tamilnadu by IAPSM.

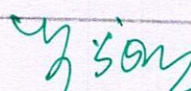

Event Structure:

The quiz was divided into the following rounds:

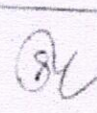

1. **Preliminary Round:** A written test consisting of multiple-choice questions (MCQs) covering various topics in Public Health, Epidemiology, Biostatistics, National Health Programs, and Current Affairs related to Health.
2. **Elimination Round:** Based on the preliminary scores, the top 4 teams moved forward to the next round.
3. **Final Round:** The final quiz had different sections, including:
 - Round one-Roll over
 - Round two- Visual Round
 - Round three – MCQs
 - Round Four – Rapid Fire

A total of 22 teams participated in the preliminary round, with 4 teams being shortlisted for the final round. The participants represented students from 2nd yr and 3rd yr MBBS students.

Winners and Prizes:

- **First Prize:** Jayasakthi Aja J, Kavin S, Pravin VS
- **Second Prize:** Hariraj A, Harish Adhitya P M, Souli Abinath A R

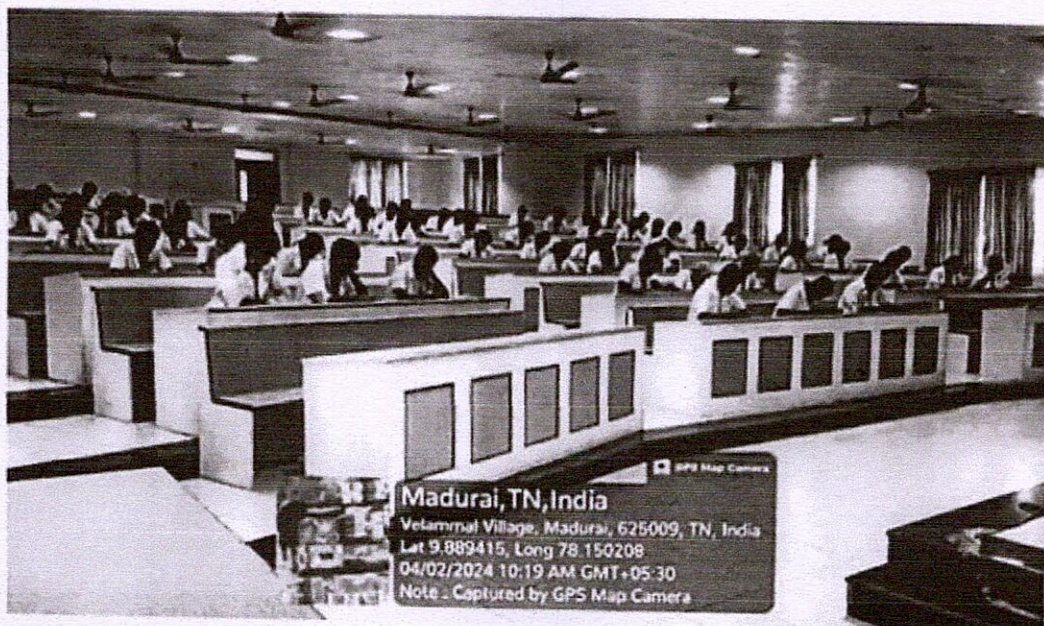

The winning teams were awarded certificates.

The IAPSM Quiz 2024 was a great success, with enthusiastic participation and a highly competitive spirit. The quiz not only provided a platform for students to showcase their knowledge but also fostered a deeper interest in the field of Preventive and Social Medicine. The organizing committee extended its gratitude to all participants, faculty members.

Model Making Competition – 2023-24

The Department of Physiology organized an Intra College Model making competition as part of the VITA ELECTIO national conference held between 4th and 6th of April. A total of 90 first year MBBS students of 2023-2024 batch participated in this competition as 13 groups. The theme for the models was “Basic Physiological Principals”. The students brought out their best efforts in coming up with their own unique principals for their models. They were ably guided by Mr. Rajan, the Head of Biomedical engineering department, VMCH & RI and the faculty from the Department of Physiology.

The competition was held on the 5th of April 2024. A total of 18 teams from all MBBS batches of Velammal Medical College participated in this competition. The teams were divided equally and were judged by two sets of judges. The judges were

1. Dr. Rekha K, Professor, Srinivasan Medical College And Hospital
2. Dr. E. Kayalvizhi, Associate Prof, Meenakshi Medical College Hospital and Research Institute
3. Dr. S. Sudha, Associate Prof, Institute of Physiology, Madurai Medical College
4. Dr. Jothi Marie Feula. A, Assistant Prof, AIIMS-Madurai

Departmental Activity Report

“Poster Competition”

For 2023 – 2024 batch

A poster competition was conducted on the topic “AETCOM” for the first year MBBS students of **2023 - 2024 batch** on **19th January 2024**(Friday, 10am to 1pm) in the Department of Physiology, Velammal Medical College building. The following table contains topics given to the students for making their posters.

Sl No	Topic
1	Common mistakes in doctor patient communication
2	Professional qualities and roles of a physician
3	Boundaries of doctor patient relationship
4	Trust and vulnerability in doctor patient relationship
5	Rights and responsibilities of patients
6	Empathy in patient encounters
7	Role of good communication between doctor and patient
8	Ethics in doctor patient relationship
9	Request for 2nd opinion

The students during their preparatory phase were exposed to the different aspects of AETCOM during the ADD-ON Certificate Course conducted by the Department of Physiology on 6th and 8th of January. These lectures helped the students understand the nuances of AETCOM. The students were asked to deliver/explain their poster in a different way other than didactic lecture model.

The students were guided by their respective in-charges - Dr. Ajit Kumar (Assistant Professor, Dept. of Physiology), Dr. Durai Arasan (Assistant Professor, Dept. of Physiology) and Dr. Noel Naveen Johnson (Senior Resident, Dept. of Physiology) in clearing their doubts and in helping them brainstorm different ideas for their poster delivery. The students were given time and space

to create their posters in the Amphibian lab of the Department of Physiology between 4pm to 4.45pm after college timings.

On the day of the competition the posters of the students were hung in the Amphibian lab and Clinical Physio lab of the Department of Physiology to be judged. A small game was organized for the non-participant students which was conducted by Dr. Ajit Kumar. This game had questions pertaining to AETCOM, correct answer and correct activity won the student prizes. Non-participant students were given the opportunity to vote for their favorite poster and prizes were given by popular vote.

Dr. R. Sarojini, Professor and Head, Department of Pharmacology, Government Sivagangai Medical College and the Convener, Regional Centre of Medical Education Technology, Madurai Medical College, was the Chief Guest and Judge for this competition. She was joined by Dr. M. Joena Xavier, Professor and Head, Department of General Medicine, VMCH & RI in judging the competition.

The students presented their poster and explained it in various formats like skit, therukoothu, etc. The judges were asking the students questions to assess their understanding of AETCOM. Following the judging process the students were made to assemble in Lecture hall 1. Dr. Noel Naveen Johnson gave the formal welcome address. Dr. R. Sarojini delivered an informal lecture on AETCOM to the students. The Dean of VMCH & RI, Dr. T. Thirunavukkarasu joined us during the prize distribution ceremony. The program ended with vote of thanks, delivered by Dr. John Rajapathy, Professor, Department of Physiology and presentation of a memento and certificate of appreciation to the chief guest by the Dean.
